

Independent Review Report to the Board of Directors of
AMS Public Transport Holdings Limited
(incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 2 to 14 which comprises the condensed consolidated balance sheet of AMS Public Transport Holdings Limited as of 30 September 2014, and the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated cash flow statement for the six-month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The directors are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34.

Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conduct our review in accordance with Hong Kong Standard on Review Engagement 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the HKICPA. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 September 2014

1. Corporate information

The Company was incorporated in the Cayman Islands on 18 March 2003 as an exempted company with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, the Cayman Islands. The head office and principal place of business of the Company is located at 11th–12th Floor, Abba Commercial Building, 223 Aberdeen Main Road, Aberdeen, Hong Kong. The shares of the Company have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 15 April 2004.

2. Basis of preparation and significant accounting policies

The unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”).

The unaudited condensed consolidated financial statements have been prepared on the historical cost basis except for public light bus (“PLB”) licences, which are measured at their fair values. The accounting policies and methods of computation used in the preparation of these condensed consolidated financial statements are consistent with those used in the Group’s audited annual financial statements for the year ended 31 March 2014.

These unaudited condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 March 2014.

In the current interim period, the Group has applied for the first time the new or amended Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA which are relevant to and effective for the Group’s financial statements for the annual period beginning on 1 April 2014.

The application of the new or amended HKFRSs has no material impact on the preparation and presentation of the results and financial position for the six months ended 30 September 2014 and periods prior to that.

The Group has not yet adopted the new or amended HKFRSs that have been issued but are not yet effective. The directors of the Company (the “Directors”) anticipate that the application of these new or amended HKFRSs will have no material impact on the results and financial position of the Group.

3. Turnover

Turnover, which is also the Group's revenue, represents:

8. Dividends

(a) *Dividends attributable to the period*

No interim dividend was declared by the Company for the six months ended 30 September 2014 (2013: Nil).

(b) *Dividends attributable to the previous financial year, approved and paid during the period*

	For the six months ended 30 September	
	2014 Unaudited HK\$'000	2013 Unaudited HK\$'000
Special dividend of HK1.0 cent (2013: HK5.0 cents) per ordinary share for the year ended 31 March 2014	2,661	13,306

9. Loss per share

(a) *Basic loss per share*

The calculation of basic loss per share is based on the loss of HK\$6,541,000 attributable to equity holders of the Company (2013: HK\$18,192,000) and on the weighted average number of 266,125,000 (2013: 266,125,000) ordinary shares in issue during the period.

(b) *Diluted loss per share*

Diluted loss per share is the same as basic loss per share for the six months ended 30 September 2014 and 2013. The calculation of diluted loss per share for the periods does not assume the exercise of the Company's outstanding share options, because the exercise price of the Company's share options was higher than the average market price of the Company's share during the periods.

10. Capital expenditure

The following table shows the movements in property, plant and equipment, PLB licences, public bus ("PB") licences and goodwill:

	Property, plant and equipment HK\$'000	PLB licences HK\$'000	PB licences HK\$'000	Goodwill HK\$'000

The fair value of a PLB licence dropped to HK\$5,300,000 as at 30 September 2014 (31 March 2014: HK\$5,540,000). At the balance sheet date, PLB licences were revalued by Vigers Appraisal & Consulting Limited, the independent qualified valuer. The fair value is determined under the market approach with reference to recent market-quoted prices. The key assumptions used under the market approach are consistent with those used and disclosed in the Group's financial statements for the year ended 31 March 2014.

Fair value hierarchy

The fair value of the Group's PLB licences is measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair Value Measurement. During the six months ended 30 September 2014 and 2013, there were no transfers between Level 1 and Level 2 or transfers into or out of Level 3.

- Level 1 valuations: Fair value measured by using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured by using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured by using significant unobservable inputs

Details of the outstanding share options are set out on page 25 of this interim report.

14. Banking facilities

As at 30 September 2014, the Group's banking facilities totaling HK\$161,405,000 (31 March 2014: HK\$166,036,000) of which approximately HK\$152,105,000 (31 March 2014: HK\$156,736,000) were utilised. These facilities were secured by:

- (i) pledges of certain property, plant and equipment of the Group with net book value of HK\$4,179,000 (31 March 2014: HK\$4,368,000);
- (ii) pledges of certain PLB licences with carrying amount of HK\$238,500,000 (31 March 2014: HK\$249,300,000); and
- (iii) guarantees provided by the Company of HK\$203,200,000 (31 March 2014: HK\$203,200,000).

15. Capital commitments

The capital commitments of the Group are as follows:

Ms. Wong Wai Sum, May, a Director, also holds directorship and has beneficial interest in some of these related companies.

MANAGEMENT DISCUSSION AND ANALYSIS

INTERIM RESULTS AND DIVIDEND

For the six months ended 30 September 2014, the net loss of the Group narrowed by 64.0% to HK\$6,541,000 (2013: HK\$18,192,000) compared with same period last year owing to the significant reduction in the non-cash deficit on revaluation of PLB licences. Since the rate of decline of PLB licences price slowed down during the period, the deficit on revaluation of PLB licences charged to income statement decreased by HK\$12,250,000 or 59.3% to HK\$8,400,000 (2013: HK\$20,650,000) compared with same period last year. Excluding the deficit on revaluation of PLB licences, however, the Group recorded a decrease in net profit by HK\$599,000 or 24.4% to HK\$1,859,000 (2013: HK\$2,458,000), which was mainly attributable to the inflating staff costs.

In line with previous practice, the Board does not recommend the payment of any interim dividend for the six months ended 30 September 2014 (2013: Nil).

REVIEW OF OPERATIONS AND FINANCIAL PERFORMANCE

- As at 30 September 2014, the Group operated 59 routes (31 March 2014 and 30 September 2013: 60 routes) with 360 PLBs (31 March 2014: 364 PLBs; 30 September 2013: 369 PLBs). During the period, the Group continued to monitor and evaluate a number of operating factors, like fleet's utilisation, route performance, passenger demands and the populations in the Group's service network etc., and concluded to cut the fleet size by 4 PLBs in routes with lower demand. The downsizing in fleet size aimed to optimise the cost structure by eliminating inefficient resources.
- Owing to the aggravated shortage of captains and traffic congestion, as well as decrease in fleet size, the number of journeys travelled by the Group during the reporting period slightly reduced by 2.3% to approximately 2.08 million (2013: 2.13 million) compared with same period last year. Coupled with the outflow of passengers to MTR and franchised buses since the Government's Public Transport Fare Concession Scheme for the Elderly and Eligible Persons with Disabilities ("Fare Concession Scheme") came into effect from June 2012, the patronage of the Group decreased by 1,152,000 or 3.9% to 28,585,000 (2013: 29,737,000) compared with same period last year. Nevertheless, the impact of drop in patronage was almost eased by the fare rise. Compared with same period last year, the fares of 16 minibus routes rose by 3.7% to 13.0%. Thus, the Group recorded a turnover of HK\$178,330,000 for the period (2013: HK\$178,502,000), which was at similar level as same period last year.
- The average fleet age of the PLBs was 10.2 years (31 March 2014: 10.3 years). Out of the 360 PLBs operated by the Group as at 30 September 2014, 304 PLBs were leased and the remaining PLBs were owned by the Group.

Finance costs	(1,593)	(1,586)	7	0.4%
Income tax expense	(372)	(444)	(72)	-16.2%
Loss for the period	(6,541)	(18,192)	(11,651)	-64.0%
Profit for the period excluding deficit on revaluation of PLB licences	1,859	2,458	(599)	-24.4%

- During the period, the rate of decline of the PLB licences price slowed down. As compared with the 9.4% decrease in same period last year, the fair value of a PLB licence was down by 4.3% to HK\$5,300,000 as at 30 September 2014 (31 March 2014: HK\$5,540,000). The carrying amount of the PLB licences of the Group, hence, dropped by HK\$13,440,000 or 4.3% to HK\$296,800,000 (31 March 2014: HK\$310,240,000). The deficit on revaluation of PLB licences charged to income statement was HK\$8,400,000 (2013: HK\$20,650,000), representing a significant decrease of HK\$12,250,000 or 59.3% compared with same period last year. Please also refer to the note 10 of the unaudited condensed consolidated financial statements for more information on the carrying amount of PLB licences.
- The direct costs were HK\$161,340,000 (2013: HK\$161,900,000), which stood at similar level as same period last year. Fuel costs for the period dropped by HK\$2,409,000 or 6.4% to HK\$35,456,000 (2013: HK\$37,865,000), which was mainly attributable to the increase in diesel rebate offered by the suppliers and reduction in consumption owing to decrease in the number of journeys travelled during the period. Furthermore, the reduction in fleet size cut the PLB rental expenses by HK\$1,053,000 or 2.6% to HK\$39,736,000 (2013: HK\$40,789,000) as compared with same period last year.

However, the saving in fuel costs and PLB rental expenses was completely offset by the inflating labour costs. The Group continued to face the problem of shortage of captains during the period. Following 5.4% in average pay rise in late October 2013, the Group further rose the captains' pay by around 7.9% in average in late July 2014 to attract and retain captains. Thus, the labour costs of captains for the period increased by HK\$3,080,000 or 5.3% to HK\$61,012,000 (2013: HK\$57,932,000).

The total balance of fuel costs, PLB rental expenses and captains' cost made up around 84.4% (2013: 84.4%) of the total direct costs.

- The administrative and other operating expenses increased by HK\$1,258,000 or 7.8% to HK\$17,360,000 (2013: HK\$16,102,000), which was mainly caused by the increase in staff costs and the professional fees and administrative costs paid for the renewal of continuing connected transaction during the period.
- The finance costs of the Group for the reporting period was HK\$1,593,000 (2013: HK\$1,586,000). The average interest rate applicable to the Group and the average balance of borrowings during the reporting period maintained at similar levels as those of the same period last year.
- During the reporting period, income tax expense decreased to HK\$372,000 (2013: HK\$444,000). Excluding the effect of deficit on revaluation of PLB licences, which was non-deductible expense under Hong Kong profits tax law, the effective tax rate was 16.7% for the period (2013: 15.3%).

CAPITAL STRUCTURE, LIQUIDITY, FINANCIAL RESOURCES AND POLICIES

Liquidity and financial resources

The Group's operations are mainly financed by proceeds from its operations. The Group carefully assesses and monitors its liquidity to ensure that it has sufficient cash and standby bank facilities to meet its daily operational needs.

As at 30 September 2014, the Group had net current assets of HK\$18,262,000 (31 March 2014: HK\$27,751,000), and the current ratio (current assets/current liabilities) reduced to 1.56 times (31 March 2014: 1.92 times). The drop in the balance of net current assets and current ratio was mainly due to the decrease in the bank balances and cash after paying the special dividends of HK\$2,661,000 for the last financial year and the balancing payment of HK\$1,900,000 for purchasing a PB licence.

Cash flow

	For the six months ended 30 September	
	2014 HK\$'000	2013 HK\$'000
Net cash from operating activities	4,117	4,309
Net cash used in investing activities	(1,891)	(6,780)
Net cash used in financing activities	(8,885)	(9,686)
Net decrease in cash and cash equivalents	(6,659)	(12,157)

With the drop in operating result for the period, the net cash from operating activities decreased by HK\$192,000 or 4.5% to HK\$4,117,000. The net cash used in investing activities of HK\$1,891,000 was mainly for the balancing payment for purchasing a PB licence. As for the net cash used in financing activities of HK\$8,885,000, the main components were the dividends payment to the equity holders of the Company of HK\$2,661,000 and the repayment of borrowings and interests amounting to HK\$6,224,000 during the period.

Borrowings

As at 30 September 2014, the balance of the total borrowings of the Group decreased by HK\$4,631,000 or 3.0% to HK\$152,105,000 (31 March 2014: HK\$156,736,000). There was no new borrowing incepted during the period. The decrease in the borrowings balance was solely due to scheduled repayments.

The maturity profiles of the borrowings are as follows:

	As at 30 September 2014 HK\$'000	As at 31 March 2014 HK\$'000
Within one year	9,416	9,320
In the second year	9,611	9,512
In the third to fifth years	30,066	29,758
After the fifth year	103,012	108,146
	152,105	156,736

The gearing ratio (total liabilities/shareholders' equity) of the Group as at 30 September 2014 increased slightly to 68.9% (31 March 2014: 66.0%), as a result of the reduction of the Group's total equity. The main reasons for the reduction in total equity were: (i) the drop in the total carrying amount of the PLB licences by HK\$13,440,000 as at 30 September 2014 compared with that as at 31 March 2014; and (ii) the payment of special dividends for the last financial year amounting to HK\$2,661,000.

As at 30 September 2014, the Group had banking facilities totaling HK\$161,405,000 (31 March 2014: HK\$166,036,000) of which HK\$152,105,000 (31 March 2014: HK\$156,736,000) was utilised.

Pledge of assets

The Group has pledged certain assets to secure the banking facilities granted. Details of the pledged assets are as follows:

	As at 30 September 2014 HK\$'000	As at 31 March 2014 HK\$'000
PLB licences	238,500	249,300
Property, plant and equipment	4,179	4,368

Credit risk management

The income of the franchised PLB operation of the Group is either received in cash or collected via Octopus cards by Octopus Cards Limited and remitted to the Group on the next business day. Also, the Group does not provide guarantees to third parties which would expose the Group to credit risk. The Group is therefore not exposed to any significant credit risk.

Foreign currency risk management

The Group is not exposed to significant foreign exchange risk as the majority of income and expenditures of its operating activities and monetary assets and liabilities of the Group are denominated in Hong Kong dollars.

Interest rate risk management

The Group's interest rate risk arises primarily from its borrowings. All borrowings as at 30 September 2014 were denominated in Hong Kong dollars and on a floating interest rate basis. The practice effectively eliminates the currency risk and the management is of the view that the Group is not subject to significant interest rate risk.

CAPITAL EXPENDITURE AND COMMITMENT

During the reporting period, the Group's total capital expenditure was HK\$4,032,000 (2013: HK\$5,099,000), of which HK\$3,980,000 was for acquiring a PB and a PB licence. As at 30 September 2014, the Group's capital commitment contracted and not provided for was HK\$23,000 (31 March 2014: HK\$2,013,000).

CONTINGENT LIABILITIES

The Group did not have any contingent liabilities as at 30 September 2014 and 31 March 2014.

EMPLOYEES AND REMUNERATION POLICIES

Since the minibus industry is labour intensive in nature, staff costs accounted for a substantial part of the total operating costs of the Group. Expenses relating to employee benefit incurred for the reporting period were HK\$79,260,000 (2013: HK\$75,555,000), representing 43.9% (2013: 42.0%) of the total costs (excluding the deficit on revaluation of PLB licences). Apart from the basic remuneration, double pay and/or discretionary bonus were also granted to eligible employees with reference to the Group's performance and individual contribution. Other benefits including share option scheme, retirement plans and training schemes were also provided to the staff members.

The headcounts of the Group were as follows:

	As at 30 September 2014	As at 31 March 2014
Directors	8	8
Administrative staff	97	99
Captains	1,108	1,093
Technicians	42	45
Total	1,255	1,245

PROSPECT

The MTR West Island Line, which will extend the existing MTR Island Line service from Sheung Wan to Kennedy Town, will commence the service in late December 2014. 10 existing routes of the Group will partly overlap with the MTR West Island Line. The management anticipates the performance of the overlapping routes will inevitably be affected. In response to the challenge, the Group will strengthen its feeder service position by reallocating its existing resources to the two new ancillary routes running between Queen Mary Hospital/Cyberport and Kennedy Town MTR station, and introducing MTR-minibus interchange concessionary fare to attract passengers. Also, the management will monitor the ongoing development of the traffic and passenger flows in the relevant districts and propose fleet size adjustment or/and route reorganisation to maximise the fleet utilisation.

As previously reported, the minibus operation has been facing the severe industry-wide problem of shortage of captains. Being a responsible operator who is using its best endeavor to maintain service frequency and quality, the Group offered a payrise of 7.9% in average, a rate higher than the prevailing inflation rate, in July this year to attract and retain the captains. It is likely that the surging labour costs will continue to be the most critical financial issue facing by the Group for this financial year. The Group will optimise operating costs internally by adjusting the fleet size and rationalising the routes and the service schedules after due evaluation of the passenger demand. Despite all these, the Group may continue to submit fare rise applications to the Transport Department.

The Government plans to extend the Fare Concession Scheme to the green minibus sector in March 2015, subject to the approval by the Finance Committee of the Legislative Council. The Group is pleased to inform shareholders that it has made internal controls arrangements accordingly to make sure that it is eligible to join the Fare Concession Scheme. With the competitive advantages of convenience and efficiency, the Group is confident that the Fare Concession Scheme will ease the outflow of passengers to MTR and franchised buses, and possibly attract more passengers to use the Group's minibus service. The management believes that the Fare Concession Scheme will be the major momentum of growth in patronage for the next financial year.

On 25 November 2014, the Government unveiled its work plan for the Public Transport Strategy Study ("Study") in a meeting of the Legislative Council Panel on Transport. According to the work plan, the Government will review the feasibility and desirability of increasing the number of passenger seats of the PLBs. It is estimated that the result of the Study will be reported to the Legislative Council in the first half of 2015. The Group believes that increasing the number of seats on PLBs is in any way a win-win solution for both the operators and the general public as the former could increase revenue without transferring the costs to the public and affecting road conditions while the latter could shorten the minibus waiting time. Therefore, the Group welcomes the Government's plan to commence the Study and hopes the result would reflect the current needs of the community.

DIRECTORS' INTERESTS IN SHARES
