# Corporate Profile

AMS Public Transport Holdings Limited (the “Company”) and its subsidiaries (collectively the “Group”) are principally engaged in the operation of franchised public light bus (“PLB”), also commonly known as green minibus, transportation services in Hong Kong.

With over 41 years of experience in the local franchised PLB transportation sector, the Group is one of the leading franchised PLB operators in Hong Kong. Currently, the Group operates 65 franchised PLB routes with 357 PLBs and four residents’ bus routes with six public buses. The Group’s fleet is well-equipped with environmentally friendly PLBs and state-of-the-art facilities, in particular, the long-wheeled PLBs that offer luggage racks and spacious seats to give enhanced sitting comfort for passengers.

The Group is committed to passenger safety in all aspects of its operations. Since 2011, the Group has been awarded the ISO 9001:2008 quality management system certification for its computerised repair and maintenance centres, making it the only franchised PLB operator in the Hong Kong Special Administrative Region (“Hong Kong”) to gain such a prestigious quality accreditation.

# Chairman's Statement

**Wong Ling Sun, Vincent**  
*Chairman*

On behalf of the Board of Directors of the Company (the "Board"), I am pleased to present to you the results of the Group for the year ended 31 March 2016.

## Results for the Year

For the year ended 31 March 2016, the Group recorded a profit attributable to equity holders of HK\$29,426,000 (2015: loss attributable to equity holders of HK\$22,902,000). The results for the year included a deficit on revaluation of Public Light Bus ("PLB") licences of HK\$2,100,000 (2015: HK\$10,500,000) and a provision for impairment of public bus licences of HK\$2,100,000 (2015: Nil). Excluding these non-cash deficit and provision, and also the provision for impairment of goodwill amounting to HK\$27,151,000 recorded in last financial year, the profit of the Group increased significantly by HK\$18,877,000 or 128.0% to HK\$33,626,000 (2015: HK\$14,749,000), which was mainly attributable to route restructuring, fare increase and significantly lower fuel prices.

## Dividends

Basic earnings per share for the year was HK11.06 cents (2015: basic loss per share of HK8.61 cents). Having carefully considered the financial performance and the future cashflows of the Group under the current business environment, the Board recommended a final dividend of HK10.0 cents per ordinary share (2015: a special dividend

of HK5.0 cents per ordinary share and no final dividend), totaling HK\$26,613,000 for the year ended 31 March 2016 (2015: HK\$13,306,000).

## Financial and Business Review

During the year under review, the operating performance of the Group continued to improve. Although there was a net outflow of passengers to the new MTR West Island Line ("WIL"), which extends the MTR Island Line service from Sheung Wan to Kennedy Town, since its opening on 28 December 2014, the impact of WIL to the Group's patronage had been outweighed by the continuous route restructuring in the routes operating in the vicinity and the participation in the Government's Public Transport Fare Concession Scheme for the Elderly and Eligible Persons with Disabilities ("Fare Concession Scheme") since 29 March 2015. As a result, the patronage of the Group for the year slightly increased by 1.1% to around 57.1 million (2015: 56.5 million). Meanwhile, attributable to the fare increase approved during the year, the revenue grew by HK\$14,829,000 or 4.2% to HK\$371,278,000 (2015: HK\$356,449,000) during the year.

The management had put tremendous effort in route re-organisations during the year. The Group completed a series of route re-organisations involving 25 franchised PLB routes and one residents' bus route. Four PLB ancillary routes

running within the Tai Po district and one residents' bus route running between Tai Po Market MTR Station and Casa Marina, Tai Po were launched during the year. Thus, as at 31 March 2016, the number of PLB routes and residents' bus routes operated by the Group increased to 65 (2015: 61) and 4 (2015: 3) respectively. The route re-organisations also aimed at optimising operating costs. The Group rationalised its fleet capacity by reducing the PLB fleet size by 3 or 0.8% to 354 PLBs (2015: 357 PLBs) as at 31 March 2016. With the introduction of a new residents' bus route, the fleet size of the residents' bus routes also increased to 6 (2015: 5).

In order to maintain the reliability of our minibus service, the Group continued to review captains' pay regularly. During the year, the Group raised the captains' pay twice by around 5.6%–6.1% in weighted average to attract and retain the captains in particular routes. Therefore, despite a slight downsizing of the PLB fleet, the total labour costs of captains increased by HK\$8,933,000 or 7.2% to HK\$132,724,000 (2015: HK\$123,791,000) compared with last year. The fuel costs, on the contrary, continued to be the main factor of the improvement of the operating result for the year. Due to the drop in international fuel prices and the increased rebates from the suppliers, the average diesel and LPG unit prices dropped by 29.7% and 27.9% respectively. Therefore, the fuel costs for the year decreased significantly by HK\$17,863,000 or 29.9% to HK\$41,841,000 (2015: HK\$59,704,000).

Last year, owing to the adverse impact brought by the WIL on the performance of PLB routes 54 and 55 (the "Routes"), which run between Central and Queen Mary Hospital, the Group recognised a significant impairment loss of HK\$27,151,000 against the goodwill arising from acquisition of Central Maxicab Limited ("CML"), a wholly owned subsidiary of the Company which operates the Routes. During the year, CML received the Transport Department's approval in transforming part of the Routes into express route in October 2015. With shortened traveling time of the journeys, the performance of the Routes has improved and growth in revenue and the net profit of the Routes have been recorded. Having considered the business valuation of the Routes as at 31 March 2016, the management concluded that no impairment on the carrying value of the goodwill arising from acquisition of CML as at 31 March 2016 was considered as necessary.

## Prospects

Since all the Group's PLB routes joined the Fare Concession Scheme in late March 2015, the patronage of the Group has improved and the effect is relatively obvious in those PLB routes that were not affected by the WIL. Riding on the convenience and efficiency of our minibus services, the management anticipates the Fare Concession Scheme would continue to attract the passengers to take our franchised PLB services in the future.

On a meeting of the Panel on Transport of the Legislative Council held on 21 June 2016, the Government reported the results of the Public Transport Strategy Study ("Study") which concluded that there is a need to increase the seating capacity of minibuses to cope with the present and future passengers' demands. Based on the Study result, the Government's preliminary view is that increasing the seating capacity of the minibus from 16 to 19 would significantly improve the present insufficient green minibus services during the peak hours. The Group welcomes and supports the Government's view. The Group currently deploys 220 long-wheeled minibuses, representing around 62% of the fleet size. Each of these long-wheeled minibuses is ready to accommodate three extra seats. With expanded capacity, the Group believes that the passengers would benefit from shortening the minibus waiting time, while the Group would be able to increase the revenues to alleviate the pressure from inflating operating costs. The industry is still trying to fight for seating capacity up to 20 seats, we hope that the Government would respond to the industry and finalise the details of the policy as soon as possible.

On the cost side, it is anticipated that the Group would continue to benefit from the lower fuel prices in the near future. However, the industry-wide manpower shortage issue is still the main operating pressure to the Group. The Group has been encountering difficulties in retaining and recruiting captains in recent years and under the current employment condition in Hong Kong, it is probable that the Group may need to further adjust the captains' pay in order to maintain the frequency and quality of service.

# Chairman's Statement

The route restructuring in response to the WIL has been almost completed, the management would continue to monitor the traffic development in the vicinity and react promptly to meet the passengers demand. The biggest challenge ahead to the Group is the opening of MTR South Island Line (East) ("SIL"), which is expected to commence service in late 2016. The Group has submitted certain route restructuring plans to the Transport Department. The Group has not received any formal official approval on our route restructuring plans yet because the discussion between the Transport Department and the stakeholders including the local communities and other transport service operators etc is still in progress. If some of the Group's existing routes are restructured as efficient feeder services to the SIL, the management believes the routes would become more popular to the general public. Meanwhile, we hope that the SIL would help relieve the traffic congestion of Aberdeen Tunnel at peak hours, which may benefit other routes of the Group. Since the future performance of the routes operating in the Southern District would highly depend on the route

restructuring plans, it is too early to assess the potential overall financial impact of the SIL to the Group at present. The Group would continue to communicate with the Government and the communities for better understanding of the needs of the commuters.

## Appreciation

On behalf of the Board, I would like to take this opportunity to express my greatest gratitude to our passengers, business partners, associates as well as our shareholders for their continuous support and confidence in the Group. Lastly, my heartfelt appreciation must also be extended to my fellow Directors and our employees for their invaluable dedication to the Group in the past years.

# Management Discussion and Analysis

AMS's objective is to propel the Group into a prominent market position by providing the public with reliable, safe and comfortable journeys, and hence maximising stakeholders' value. The Group endeavors to achieve its objective by maintaining a team of management expertise which puts continuous effort in improving fleet productivity, efficiency and service quality, and carrying out stringent repairing and maintenance programmes for the sake of safety.

## Review of Operation

- During the year, the Group continued to use its best endeavor to meet passengers' demands and to improve its operational efficiency. The Group completed a series of route re-organisations involving 25 franchised PLB routes and one residents' bus route. Four PLB ancillary routes running within the Tai Po district and one residents' bus route running between Tai Po Market MTR Station and Casa Marina, Tai Po were launched during the year. As at 31 March 2016, the Group operated 65 PLB routes (2015: 61) and 4 residents' bus routes (2015: 3).
- As a result of the series of route re-organisations, the Group reduced its fleet size by 0.8% or three to 354 (2015: 357) as at 31 March 2016. On the other hand, with the introduction of a new residents' bus route, the fleet size of the residents' bus routes increased to 6 (2015: 5).
- Although the fleet size was reduced, the number of journeys traveled for the year was 4.22 million, representing an increase of approximately 1.9% compared to that of last year (2015: 4.14 million) and the total mileage traveled by the Group also increased by 0.7% to around 42.0 million kilometers (2015: 41.7 million kilometers). The management is of a view that the efficiency of the fleet has been raised after the completion of the route restructuring.
- The opening of the WIL inevitably had a negative impact on the patronage of the Group's routes operating in the vicinity. Nevertheless, joining the Fare Concession Scheme increased the price competitiveness of the PLB routes and thus gradually recovered the loss of passengers to the franchised buses and MTR in previous years. As a result, the patronage of the Group slightly increased by 1.1% to around 57.1 million (2015: 56.5 million) compared with that of last year.
- To ease the pressure from high operating costs, especially inflating staff costs, the Group continued to submit fare increase applications during the year. The Group was granted approval to raise the fares in 21 routes at rates<sup>1</sup> ranging from 4.5% to 9.4% during the year (2015: 32 routes at rates ranging from 3.8% to 22.5%). Thus, coupled with the slight growth in patronage, the revenue increased by HK\$14,829,000 or 4.2% to HK\$371,278,000 (2015: HK\$356,449,000) during the year.

<sup>1</sup> The rates refer to the increment in full fares of the routes.

# Management Discussion and Analysis

## The PLB Fleet Upgrade

The average PLB fleet age increased to 11.5 years (2015: 11.0) as at 31 March 2016. As previously reported in the past annual reports, the filtering procedure and technical features of the Euro IV diesel minibuses have brought unpredictable halts to the operations of the minibuses. Therefore, the replacement of the Group's old minibuses by the Euro IV or above diesel minibuses has been suspended.

The Group tries to look for other reliable energy saving vehicles for the sake of environmental protection and fleet efficiency. The Group first deployed hybrid minibus in late 2013 and has been observing the vehicle performance of the hybrid minibus. At present, the management considers that there is still room for improvement for the reliability and fuel saving capacity of the hybrid minibus. Therefore, Liquefied Petroleum Gas ("LPG") minibus is still considered as a better alternative.

Nevertheless, extensive replacement by LPG minibuses is not an ideal solution because the operators need to face the problem of insufficient numbers of LPG filling stations in Hong Kong, especially in districts where the Hong Kong Island routes of the Group are running. However, recognising the importance of regular PLB replacement to avoid mechanical breakdowns, the Group deployed 12 new LPG minibuses to replace the aged diesel minibuses during the year ended 31 March 2016. The Group plans to further replace around 40 old PLBs, mainly by LPG minibuses, in the coming one and a half years. The Group deployed 236 diesel minibuses (2015: 252), 116 LPG minibuses (2015: 104) and 2 hybrid minibuses (2015: 1) as at 31 March 2016.

## Why are the Euro IV diesel minibuses not suitable for operating in Hong Kong?

*To meet the latest stringent emission standards, the Euro IV diesel minibuses must go through filter regeneration to remove diesel particulates accumulated in the filter systems. Since the journeys of minibuses in Hong Kong are relatively short and the stops are frequent, the filter regeneration cannot be completed during the interrupted operation of the engines. Indeed, the minibuses must be motionless to run filter regeneration for at least 20 minutes or sometimes even up to one hour where a certain quantity of particulates has been accumulated. Furthermore, some technical problems of the Euro IV diesel minibuses deployed by the Group also caused frequent breakdowns which increased the repairing costs and down time of the fleet. All these problems drove the Group to stop its regular aged minibuses replacement with Euro IV or above diesel minibuses starting from financial year 2009/10.*

## Financial Review

### Consolidated results for the year

For the year ended 31 March 2016, the Group recorded a profit attributable to equity holders of HK\$29,426,000 (2015: a loss attributable to equity holders of HK\$22,902,000). The details of the consolidated results are presented below:

	2016 HK\$'000	2015 HK\$'000	Increase/(Decrease) HK\$'000	In %
Revenue	371,278	356,449	14,829	+4.2%
Other revenue and other net income	9,123	8,827	296	+3.4%
Direct costs	(299,015)	(310,287)	(11,272)	-3.6%
Administrative and other operating expenses	(38,050)	(34,289)	3,761	+11.0%
Finance costs	(2,967)	(3,142)	(175)	-5.6%
Income tax expense	(6,743)	(2,809)	3,934	+140.0%
Profit for the year before deficit on revaluation of PLB licences and provisions for impairment of goodwill and public bus licences	33,626	14,749	18,877	+128.0%
Deficit on revaluation of PLB licences	(2,100)	(10,500)	(8,400)	-80.0%
Provision for impairment of public bus licences	(2,100)	–	2,100	N/A
Provision for impairment of goodwill	–	(27,151)	(27,151)	-100.0%
Profit/(Loss) for the year	29,426	(22,902)	(52,328)	N/A

- The Group was granted approval to raise the fares of 21 routes at rates ranging from 4.5% to 9.4% during the year (2015: 32 routes at rates ranging from 3.8% to 22.5%). Coupled with the slight patronage growth of 1.1%, the revenue increased by HK\$14,829,000 or 4.2% to HK\$371,278,000 (2015: HK\$356,449,000) during the year due to fare increase.
- Attributable to the significant drop in fuel prices, the total direct costs for the year was HK\$299,015,000 (2015: HK\$310,287,000), representing a decrease of HK\$11,272,000 or 3.6% compared with that of last year. The major direct costs of the Group are captains' costs, PLB rental expenses and fuel costs, which altogether made up around 83.5% of the total direct costs (2015: 84.2%) for the year ended 31 March 2016. The changes on these major costs are as follows:
  - Fuel costs: Due to the drop in international fuel prices and the increased rebates from the suppliers, the saving in fuel costs for the year was significant and it became the main reason to the increase in net profit for the year (excluding the non-cash deficit on revaluation of PLB licences and the provisions for impairment of goodwill and public bus licences). During the year, the average diesel and LPG unit prices dropped by 29.7% and 27.9% respectively. Therefore, the fuel costs for the year decreased by HK\$17,863,000 or 29.9% to HK\$41,841,000 (2015: HK\$59,704,000);

# Management Discussion and Analysis

- Captains' costs: Following the 7.6% in weighted average pay rise in all routes in late July 2014, the Group raised the captains' pay in 42 routes by around 5.6% in weighted average in April 2015 in order to attract and retain the captains in these routes which still faced labour shortage. In late December 2015, the Group further increased the captains' pay by around 6.1% in weighted average in 7 routes. Thus, despite a slight downsizing of the PLB fleet, the total labour costs of captains increased by HK\$8,933,000 or 7.2% to HK\$132,724,000 (2015: HK\$123,791,000) compared with last year; and
- PLB rental expenses: The PLB rental expenses dropped by HK\$2,601,000 or 3.3% to HK\$75,168,000 (2015: HK\$77,769,000), which was mainly attributable to the reduction in PLB fleet size by around 1.6% in average and the decrease in hiring rate payable to the connected parties by around 2.9% in average with effect from 1 October 2014.
- The administrative and other operating expenses increased by HK\$3,761,000 or 11.0% to HK\$38,050,000 (2015: HK\$34,289,000), which was primarily due to the increase in administrative staff costs by approximately HK\$2,548,000 or 10.0% to HK\$28,112,000 (2015: HK\$25,564,000) and the share-based compensation expense of HK\$1,316,000 recognised for the grant of share options to administrative staff members on 23 September 2015. Please also refer to the note 26 to the financial statements and the section "Share Option Scheme" of the Directors' Report contained in this annual report for more information.
- The market interest rates remained stable during the year. The average borrowing interest rates of the Group was 2.08% (2015: 2.07%), a similar level as last year. The finance costs of the Group for the year decreased by HK\$175,000 or 5.6% to HK\$2,967,000 (2015: HK\$3,142,000) owing to the reduction in average bank loans balances as a result of scheduled repayments.
- During the year, income tax expense increased by HK\$3,934,000 or 140.0% to HK\$6,743,000 (2015: HK\$2,809,000). Excluding the effect of deficit on revaluation of PLB licences and the provisions for impairment of goodwill and public bus licences, all being non-deductible expenses, the effective tax rate for the year was 16.7% (2015: 16.0%). The Hong Kong profits tax rate applicable to the Group during the year was 16.5% (2015: 16.5%).

# Management Discussion and Analysis

- During the year, the rate of decline of the PLB licences price continued to slow down. As compared with the 5.4% decrease in last year, the fair value of a PLB licence was slightly down by 1.1% to HK\$5,180,000 as at 31 March 2016 (2015: HK\$5,240,000). The carrying amount of the PLB licences of the Group, hence, dropped by HK\$3,360,000 to HK\$290,080,000 (2015: HK\$293,440,000). The deficit on revaluation of PLB licences charged to consolidated income statement was HK\$2,100,000 (2015: HK\$10,500,000), representing a significant decrease of HK\$8,400,000 or 80.0% compared with last year. Please also refer to the note 16 to the financial statements for more information on the carrying amount of PLB licences.

According to the applicable accounting standards, the PLB licences are revalued with reference to their market value at each reporting date. Nevertheless, instead of holding for investment purpose, all the PLB licences owned by the Group are for operational use. The accounting revaluation of the PLB licences should be considered separately because the volatility of their market value has no significant impact on the Group's core operation.

- During the year, the coach hiring industry has been facing a challenging business environment owing to the decline in the number of mainland visitors arrival of Hong Kong. Therefore, the management considered that there was possible impairment in the carrying value of public bus licences as at 31 March 2016. The result of the impairment test, which was based on the value in use basis, of public bus licences carried out by the management indicated a provision for

impairment of public bus licences amounting to HK\$2,100,000 (2015: Nil) as at 31 March 2016. Please also refer to the note 17 to the financial statements for more information on the carrying amount of public bus licences.

- As reported in the last annual report, the performance of the Routes has been adversely affected since the opening of WIL in late December 2014. Since the proposed route restructuring plans had not been approved by the Transport Department as at last year end, the management therefore considered that it would be prudent to assume that the profitability of the Routes would be weakened in the long run, unless and until firm decisions about the route restructuring plans were received from the Government. On this basis, a business valuation of the Routes as at 31 March 2015 has been carried out by an independent qualified valuer. Based on this business valuation, a significant impairment loss of HK\$27,151,000 was charged against the goodwill arising from acquisition of CML as at 31 March 2015.

During the year, CML received the Transport Department's approval in transforming part of the Routes into express route in October 2015. Since then, the Routes have been providing more direct and efficient journeys to the passengers. The performance of the Routes has improved and growth in revenue and net profit of the Routes have been recorded. Having considered the business valuation of the Routes as at 31 March 2016, the management concluded that no impairment on the carrying value of the goodwill arising from acquisition of CML as at 31 March 2016 was considered as necessary.

## Cash flow

	2016 HK\$'000	2015 HK\$'000
Net cash from operating activities	44,361	18,452
Net cash used in investing activities	(5,968)	(2,448)
Net cash used in financing activities	(21,673)	(15,122)
Net increase in cash and cash equivalents	16,720	882

During the year, the net cash from operating activities increased by HK\$25,909,000 or 140.4% to HK\$44,361,000, as a result of the improved operating performance of the Group. The net cash used in investing activities of HK\$5,968,000 was mainly for the deposit payment amounting to HK\$4,900,000 for purchasing a PLB licence and the corresponding PLB. The net cash used in financing activities was HK\$21,673,000, which included the repayment of borrowings and interests amounting to HK\$12,467,000 and the dividends payment to the equity holders of the Company of HK\$13,306,000, partly net off by proceeds from a new borrowing of HK\$4,100,000. Please refer to the consolidated cash flow statement and note 34 to the financial statements of this annual report.

## Capital structure, liquidity and financial resources

### Liquidity and financial resources

The Group's operations are mainly financed by proceeds from its operations. The Group carefully assesses and monitors its liquidity to ensure that it has sufficient cash and standby bank facilities to meet its daily operational needs.

As at 31 March 2016, the Group's net current assets increased by HK\$18,008,000 or 66.0% to HK\$45,291,000 (2015: HK\$27,283,000) and current ratio (current assets/current liabilities) was up to 2.29 (2015: 1.88). The increase in the balance of net current asset and current ratio was mainly attributable to:

- the substantial increase in the bank balances and cash by HK\$16,713,000 or 33.9% to HK\$65,988,000 as at 31 March 2016 (2015: HK\$49,275,000) as explained in the "Cash flow" section above; and

- the significant increase in trade and other receivables by HK\$5,280,000 or 58.6% to HK\$14,291,000 (2015: HK\$9,011,000), which was mainly due to a deposit amounting to HK\$4,900,000 paid during the year for the acquisition of a PLB licence and the corresponding PLB.

As at 31 March 2016, the Group had bank balances and cash amounting to HK\$65,988,000 (2015: HK\$49,275,000). 99.8% (2015: 99.7%) of the bank balances and cash as at 31 March 2016 were denominated in Hong Kong dollars and the remaining bank balances and cash were denominated in Renminbi.

As at 31 March 2016, the Group had bank facilities totaling HK\$151,317,000 (2015: HK\$156,717,000), of which HK\$142,017,000 (2015: HK\$147,417,000) were utilised.

### Borrowings

As at 31 March 2016, the total borrowings balance of the Group decreased by HK\$5,400,000 or 3.7% to HK\$142,017,000 (2015: HK\$147,417,000). A new borrowing amounting to HK\$4,100,000 was incepted during the year for the purpose of acquiring a PLB licence and the corresponding PLB. The decrease in the borrowings balance was due to scheduled repayments.

The maturity profiles of the borrowings are as follows:

	2016 HK\$'000	2015 HK\$'000
Within one year	9,820	9,506
In the second year	10,025	9,710
In the third to fifth years	30,795	30,199
After the fifth year	91,377	98,002
	142,017	147,417

The gearing ratio (total liabilities/shareholders' equity) as at year end decreased to 66.1% (2015: 71.2%) due to the increase in the balance of shareholders' equity by HK\$16,293,000 to HK\$253,681,000 (2015: HK\$237,388,000) at year end, compared with previous year. The increase in the balance of shareholders' equity for the year was mainly attributable to the significant improvement in the net profit for the year.

# Management Discussion and Analysis

## Pledge of assets

The Group has pledged certain assets to secure the banking facilities granted. Details of the pledged assets as at year end are as follows:

	2016 HK\$'000	2015 HK\$'000
PLB licences	238,280	235,800
Property, plant and equipment	3,715	4,010

## Credit risk management

The income of the franchised PLB operation of the Group is either received in cash or collected via Octopus Cards Limited and remitted to the Group on the next business day. Also, the Group does not provide guarantees to third parties which would expose the Group to credit risk. The Group is therefore not exposed to any significant credit risk.

## Foreign currency risk management

The Group is not exposed to significant foreign exchange risk as the majority of the income and expenditures of its operating activities, monetary assets and liabilities are denominated in Hong Kong dollars.

## Interest rate risk management

The Group's interest rate risk arises primarily from its borrowings. All borrowings as at 31 March 2016 were denominated in Hong Kong dollars and on a floating interest rate basis. The practice effectively eliminates the currency risk and the management is of the view that the Group is not subject to significant interest rate risk.

## Capital expenditure and commitment

The total capital expenditure for the year was HK\$1,604,000 (2015: HK\$4,771,000), mainly for purchasing two motor vehicles for administrative purpose. As at 31 March 2016, the capital commitment was HK\$1,230,000 (2015: HK\$43,000).

## Employees and remuneration policies

Since the minibuss industry is labour intensive in nature, staff costs accounted for a substantial part of the total operating costs of the Group. Apart from the basic remuneration, double pay and/or a discretionary bonus are granted to eligible employees in accordance with the Group's performance and individual's contribution. Other benefits including share option scheme, retirement plan and training schemes are also provided to the staff members. Employee benefit expenses incurred for the year were HK\$174,849,000 (2015: HK\$160,513,000), representing 50.4% (2015: 45.8%) of the total costs. The total employee benefits expenses for the year included a one-off share option expense of HK\$1,433,000 (2015: Nil) in respect of a total of 8,428,000 share options granted to the employees of the Group on 23 September 2015. For the headcount of the Group, please refer to the Corporate Social Responsibility section of this annual report.

## Events after the balance sheet date

During the period after 31 March 2016 and up to the date of this annual report, the Group has purchased four PLB licences and the corresponding PLBs from various independent third parties at a total consideration of HK\$20,330,000 for operational use.

In order to finance the acquisition of the PLB licences and PLBs, the Group terminated four existing hire purchase agreements and entered into four new hire purchase agreements to receive a net proceeds of HK\$8,611,000 from a bank on 30 May 2016. The refinancing arrangement involved the Group's redemption and disposal of the four underlying PLB licences and the corresponding PLBs to, and lease back from the bank. In substance, the Group retains all the risks and rewards incident to ownership of the underlying PLB licences and PLBs and enjoys substantially the same rights to their use as before the refinancing arrangement. Therefore, from an accounting prospective, the refinancing arrangement will be recognised and booked as a net increase of HK\$8,611,000 in the bank borrowings in the financial statements of the Group.

## Safety Awareness

Safety of the passengers and the frontline staff is the primary concern of the Group. As a responsible public transport service provider, the management believes that safety is the cornerstone to business success. The Group is committed to providing safe, comfortable and reliable journeys to our passengers. The safety of its operations is enhanced by ways of continuous training and education, regular checks and comprehensive maintenance programmes.

The Group organised courses and seminars on road safety throughout the year, which helped to raise safety and risk awareness and improve work practices of our staff. Some of these courses and seminars were co-organised by the Group and the Traffic Division of the Hong Kong Police Force. To enforce safety guidelines and cultivate a professional and responsible driving attitude among captains, the Group has adopted stringent code of conduct and captains' guidelines, conducted spot checks and arranged inspection personnel disguised as passengers to make timely reports for any misbehaviour of the captains. The Group also checks the validity of the captains' driving licences half-yearly. These programmes were designed to minimise the occurrence of accidents as we are committed to maintaining a low accident rate. Tips to passengers are also posted at prominent locations inside the minibuses to remind the passengers of the safety on board.

The Group has implemented comprehensive maintenance programmes to ensure proper checks and maintenance of the vehicles. In order to ensure the quality and effectiveness of the repairing process, the Group has put great efforts into the computerisation of the repairing management system in recent years. The Group has been rewarded the ISO 9001:2008 quality management system certification for its dedication to enhance its repairing and maintenance centres since January 2011, making the Group the only franchised PLB operator in Hong Kong having such a prestigious accreditation.

The average accident rate was 3.0 per million km for the year ended 31 March 2016 (2015: 3.2 per million km). Apart from enhancing the new captains' safety awareness by strengthening their orientation training, the management also sought to lower the accident rate by strengthening the repair and maintenance programmes and increasing

captains' pay twice during the year, in the hope that increasing the attractiveness of the captains' remuneration to retain quality captains.

## Environmental Protection

The Group is dedicated to protecting the environment and promoting sustainable development for the betterment of our next generation. To improve air quality, the whole fleet of vehicles adopts Euro V diesel or LPG and the captains are also required to strictly comply with the legal requirements of idling engine ban.

The Group supports the environmental protection policy of the Government. However, owing to the technical problems found in the latest model of diesel minibuses which has been discussed in the "Management Discussion and Analysis" section, the Group has no choice but slowed down its regular replacement plan in recent years. Nevertheless, the Group will first consider deploying LPG minibuses when replacing old minibuses. During the year, the Group deployed 12 new LPG minibuses to replace the aged diesel minibuses. The Group plans to further replace around 40 old PLBs by new LPG minibuses in the coming one and a half years.

The Group also promotes a "Green" concept in the administrative office. Staff members are encouraged to minimise paper and electricity consumption, reuse and recycle used papers and used plastic cartridges in copying machines and printers. Green plants are also grown in different corners of the office to offer greenery environment to the staff.

## Serving the Communities

The Group places great value on corporate citizenship and social responsibility. Over the years, the Group has sponsored various activities organised by different district groups and charities. In addition to financial assistance, the Group and its staff members have participated in various community services. The activities that the Group sponsored or participated through its employees included Southern District's Road Safety Campaign, Southern District Football Club and Walks for Millions organized by the Community Chest etc. During the year, the Group continued to be nominated by Aberdeen Kai-fong Welfare Association Social Service Centre and was awarded as a "Caring Company" by The Hong Kong Council of Social Service in five consecutive years in recognition of its contributions to community involvement programmes.

The Group also continued its support to the community through expanding the coverage of its GMB-GMB Interchange (GGI) schemes, offering fare concessions to passengers traveling on long journeys on specific routes and joining the Government's Fare Concession Scheme. Our operation team maintained close communication with

district and resident representatives and responded proactively to passenger needs.

## Human Resources

The minibus industry is labour-intensive in nature. The Group considers its employees as its greatest assets.

As at 31 March 2016, the Group had 1,282 employees (2015: 1,239) in total. The remuneration packages of the employees include basic salaries, bonuses, traveling allowance and housing allowance. The level of remunerations is reviewed annually by reference to the market condition and individual merits. The Group also operates a share option scheme for eligible employees as incentives for their contributions to the Group.

The Group considers that staff development is important to improve the employees' abilities. Therefore, the Group encourages employees to attend in-house or external training courses or seminars at the Group's expense.

# Corporate Governance Report

The Company is dedicated to ensuring that its business activities and other affairs are conducted in accordance with good corporate governance practices. The Board believes that good corporate governance practices facilitate effective management and healthy corporate culture, which are the keys to running a successful and sustainable business. In the opinion of the Board, a high standard of corporate governance and practices should emphasise sound risk management, internal controls, accountability and transparency, which will benefit the stakeholders and maximise shareholders values.

The Company is committed to devoting considerable effort to identify and formalise best practice of corporate governance. The Company has also set up corporate governance practices to meet all code provisions and some of the recommended best practices in Appendix 14 “Corporate Governance Code and Corporate Governance Report” (the “Code”) of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”). The Code has been revised with effect from 1 January 2016 (the “Revised Code”).

During the year, the Company has met all the code provisions of the Code and the Revised Code (since 1 January 2016). Also, the Board conducts evaluation of its performance annually and a whistle-blowing mechanism has been set up for employees to report possible improprieties in financial reporting, internal control or other matters to the Audit Committee, both are the recommended best practices set out in the Code and the Revised Code.

## The Board of Directors

### Composition of the Board

The Board is chaired by Mr. Wong Ling Sun, Vincent (the “Chairman”). The Board comprises five Executive Directors and three Independent Non-Executive Directors. Four board committees, namely Executive Committee, Remuneration Committee, Audit Committee and Nomination Committee, are appointed by the Board to oversee different areas of the Group’s affairs. The respective responsibilities of the Board and the board committees are discussed in this report.

The Board sets the Group’s overall objectives and strategies, monitors and evaluates its operating and financial performance and reviews the corporate governance standard of the Company. It also decides on matters such as annual and interim results, material or connected transactions, director appointments or re-appointments, dividends and accounting policies. The Board has delegated the authority of and responsibility for implementing the Group’s business strategies and managing the daily operations of the Group’s businesses to the Executive Committee. The Executive Committee comprises the five Executive Directors and is fully accountable to the Board.

All Independent Non-Executive Directors, whose designations as Independent Non-Executive Directors are identified in all corporate communications of the Company, bring a variety of experience and expertise to the Group and at least one of the three Independent Non-Executive Directors has appropriate professional qualifications or accounting or related financial management expertise. The Independent Non-Executive Directors participate in Board meetings to bring an independent judgment on the issues arising in the meetings and monitor the Group’s performance in achieving the corporate goals and objectives. The Company maintains appropriate directors’ and officers’ liabilities insurance.

Notes: "C" means the chairman of the relevant board committee

"M" means a member of the relevant board committee

The Board members have no financial, business, family or other material/relevant relationships with each other save that (1) Ms. Ng Sui Chun is the spouse of Mr. Wong Man Kit; (2) Mr. Wong Man Kit and Ms. Ng Sui Chun are the parents of the Chairman and Ms. Wong Wai Sum, May; and (3) the Chairman is the brother of Ms. Wong Wai Sum, May. When the Board considers any proposal or transaction in which a Director or any of his/her associate(s) has an interest, such Director declares his/her interest and is required to abstain from voting. If a Director has conflict of interests in a matter to be considered by the Board which the Board has determined to be material, the matter must be dealt with by a physical Board meeting rather than a written resolution.

Each of the Independent Non-Executive Directors has confirmed in writing his/her independence from the Company in accordance with the guidelines on director independence in the Listing Rules. On this basis, the Company considers all Independent Non-Executive Directors to be independent. All Directors disclosed to the Board on their first appointment their interests as director or otherwise in other public companies or organisations and other significant commitments. Such declarations of interests and the respective time commitment are updated semi-annually and reported to the Company when there is any significant change.

The Board reviews its composition regularly to ensure that it has the appropriate balance of expertise, skills, experience and diversity of perspectives to continue to effectively oversee the business of the Group. Given the composition of the Board and the skills, knowledge and expertise that each Director exercises in his/her deliberations, the Board believes that it is appropriately structured to provide sufficient checks and balances to protect the interests of the Group and the shareholders.

# Corporate Governance Report

All Directors are encouraged to participate in continuous professional development and the Company is responsible for the costs of such trainings. Directors are required to provide a record of the training they received to the Company annually. The participation by Directors in the continuous professional development with appropriate emphasis on duties of a Director of a listed company and corporate governance matters during the year ended 31 March 2016 is as follows:

## Board Meetings

Regular Board meetings are held at least four times a year at approximately quarterly intervals and are scheduled in advance to facilitate the fullest possible attendance. Additional meetings may be called if necessary. The company secretary of the Company (the "Company Secretary") assists the Chairman in setting the agenda of Board meetings. Notices of regular Board meetings, including the proposed agenda, are sent to the Directors at least 14 days before the meeting date and each Director is invited to present any businesses that he/she wishes to discuss or propose at such meetings. Finalised agenda and Board papers are normally circulated to all Directors six days before the regular Board meetings to ensure timely access to relevant information. All Directors are supplied with adequate and sufficient information to enable them to make well-informed decisions and they are free to access the senior management of the Group to make further enquiries. The Chief Executive Officer (the "CEO") and the senior management are obligated to respond to the queries raised by the Directors in a timely manner.

The Board agrees to seek independent professional advice at the expense of the Company, upon reasonable request and approval of all Independent Non-Executive Directors. Draft and final versions of Board minutes are circulated to all Directors for their comments and records respectively. Final Board minutes are kept by the Company Secretary and are open for inspection by the Directors. The Company held four regular full Board meetings and three sets of written resolutions were passed during the financial year 2015/16.

The attendance of the regular full Board meetings during the year ended 31 March 2016 is as follows:

Executive Directors: Mr. Wong Ling Sun, Vincent, Chairman (4/4), Mr. Wong Man Kit (4/4), Ms. Ng Sui Chun (4/4), Mr. Chan Man Chun, the CEO (4/4) and Ms. Wong Wai Sum, May (4/4); Independent Non-Executive Directors: Dr. Lee Peng Fei, Allen (4/4), Dr. Chan Yuen Tak Fai, Dorothy (4/4) and Mr. Kwong Ki Chi (4/4).

# Corporate Governance Report

## Board Committees

The Board delegates some of its duties and responsibilities to four board committees, namely, Executive Committee, Remuneration Committee, Audit Committee and Nomination Committee. Clear terms of reference have been established for each of the board committees which will be discussed below. The board committees report back to the Board on their decisions or recommendations.

The Directors are of the view that they have the overall and collective responsibilities in performing the corporate governance functions of the Group and opt not to delegate this function to any board committee. The major responsibilities of the Board concerning corporate governance are:

- setting up and reviewing the Group's policies and practices on corporate governance;
- reviewing and monitoring the training and continuous professional development of Directors and senior management;
- reviewing and monitoring the Group's policies and practices in compliance with legal and regulatory requirements;
- setting up, reviewing and monitoring the code of conduct and compliance policies/guidelines applicable to employees and Directors; and
- reviewing the Group's compliance with the Code and disclosure in the Corporate Governance Report.

During the year ended 31 March 2016, in response to the "Consultation conclusion on risk management and internal control: review of the corporate governance code and corporate governance report" issued by the Stock Exchange in December 2014 and the Revised Code, the Board and the Audit Committee set up a formal risk management framework of the Group. For details, please refer to the subsection "Audit Committee".

## Appointment and Re-Election of Directors

The Nomination Committee regularly reviews the structure, size and composition (including the skills, knowledge, experience and diversity considerations) of the Board to ensure its expertise and independence are maintained. A person may be appointed as a member of the Board at any time either by the shareholders in general meeting or by the Board upon recommendation by the Nomination Committee.

At each AGM, one-third of the Directors (or, if the number of Directors is not divisible by three, such number as is nearest to and less than one-third) must retire as Directors by rotation. All Directors are subject to retirement by rotation at least once every three years in accordance with the Company's Articles of Association ("Articles") and are eligible for re-election and re-appointment. A Director who is appointed by the Board to fill a casual vacancy must retire at the first AGM of the Company after his appointment. Such Director is eligible for election at that AGM, but is not taken into account when deciding which and how many Directors should retire by rotation at that AGM.

All Independent Non-Executive Directors are appointed on a term of not more than three years and are subject to re-election. For any Independent Non-Executive Director who has served on the Board for more than nine years, his/her further appointment will be subject to a separate resolution to be approved by the shareholders. The Company shall disclose the reasons in the annual report or the circular why it considers such Independent Non- Executive Director to be independent and should be re- elected.

There is a formal letter of appointment for each Director setting out the key terms and conditions of his/her appointment. Every newly appointed Director shall receive a comprehensive, formal and tailored induction on appointment. Subsequently, the Company Secretary would arrange briefing and/or professional development trainings to develop and refresh the Directors' knowledge and skills, as well as ensuring that the Directors have a proper understanding of the Company's operations and business and other regulatory requirements updates.

# Corporate Governance Report

The procedures for shareholders to propose a person for election as a Director are available on the Company's website at <http://www.amspt.com/htdocs/investor/#cg>.

## Chairman and Chief Executive Officer

To ensure a balance of power and authority, the role of the Chairman is separated from that of the CEO. The current CEO is Mr. Chan Man Chun, who is also an Executive Director.

The posts of Chairman and CEO are distinct and separate. The division of responsibilities between the Chairman and the CEO is clearly established and set out in the Board Manual and summarised as follows:

The responsibilities of the Chairman include:

- chairing and leading the Board to ensure that it operates effectively;
- ensuring that adequate information about the Group's business, which must be accurate, clear, complete and reliable, is provided to the Board on a timely basis;
- ensuring that all Directors are properly briefed on issues arising at Board meetings;
- ensuring good corporate governance practices;
- monitoring the performance of the CEO and other Executive Directors;
- holding meetings with the Independent Non-Executive Directors without the presence of the Executive Directors; and
- ensuring appropriate steps are taken to provide effective communication with shareholders and that their views are communicated to the Board as a whole.

The responsibilities of the CEO include:

- being ultimately responsible for the Group's operations and management;
- supporting the Board by providing industrial and business expertise to the Board;
- proposing to the Board the direction, objectives, strategies and policies of the Group for its consideration and approval;
- selecting and leading the top management team towards the achievement of the Group's long term objectives, missions, strategies and goals approved by the Board; and
- procuring the management to provide the Board with financial and operational monthly updates giving a balanced and understandable assessment of the Group's performance, position and prospects in sufficient detail to enable the Board as a whole and each Director to discharge their duties.

## Delegation by the Board

### Executive Committee

The Executive Committee is chaired by the Chairman and comprises the other four Executive Directors including the CEO. It meets monthly and is responsible to the Board for overseeing and setting the strategic direction of the Group.

The major responsibilities of the Executive Committee are:

- establishing strategic directions of the Group and submitting them to the Board for their approval;
- monitoring the execution of the Company's strategic plans as determined by the Board;
- monitoring the day to day operations and performance of the senior management;
- setting up sound risk management and internal control systems to manage the risks of the Group;

# Corporate Governance Report

- assessing any business opportunities on diversification, expansion or acquisition; and
- approving any changes to the scope of authority delegated to the senior management.

In response to the Revised Code, the terms of reference of the Executive Committee have been amended to clarify that one of the responsibilities of the Executive Committee is the set up of sound risk management and internal control systems for the Group. The terms of reference of the Executive Committee are available on the website of the Company.

## Remuneration Committee

The Remuneration Committee is chaired by an Independent Non-Executive Director, Dr. Lee Peng Fei, Allen, and comprises the other two Independent Non- Executive Directors, Dr. Chan Yuen Tak Fai, Dorothy and Mr. Kwong Ki Chi.

The major responsibilities of the Remuneration Committee are:

- making recommendations to the Board on the remuneration policy and structure for all Directors and senior management and on the establishment of a formal and transparent procedure for developing remuneration policy;
- reviewing and approving the management's remuneration proposals with reference to the Board's corporate goals and objectives;
- making recommendations to the Board on the remuneration packages of individual Executive Directors and senior management;
- making recommendations to the Board on the remuneration of Independent Non-Executive Directors;
- considering salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group;

- reviewing and approving compensation payable to Executive Directors and senior management for any loss or termination of office or appointment to ensure that it is consistent with relevant contractual terms and is otherwise fair and not excessive;

- reviewing and approving compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that they are consistent with relevant contractual terms and are otherwise reasonable and appropriate;

- ensuring that no Director or any of his/her associates is involved in deciding his/her own remuneration;

- making recommendation to the Board on appropriate means to administer remuneration programs of Directors and senior management; and

- reviewing any transaction between the Group and the Directors, or any interest associated with the Directors, to ensure the structure and the terms of the transactions comply with the rules and laws and are appropriately disclosed.

The terms of reference of the Remuneration Committee are available on the websites of the Company and the Stock Exchange.

The Remuneration Committee is provided with sufficient resources to perform its duties and it can access independent professional advice at the expense of the Company if necessary. It is the practice of the Remuneration Committee to consult the Chairman and/or the CEO about their remuneration proposals for other Executive Directors. To avoid conflict of interests, no Director or any of his/her associates is involved in deciding his/her own remuneration.

During the year ended 31 March 2016, the Remuneration Committee held one meeting and passed one written resolution to perform the following work:

- reviewed the Company's policy and structure for the remuneration of Independent Non-Executive Directors;

# Corporate Governance Report

- reviewed the remuneration packages and structures of all Executive Directors and the senior management;
- assessed the performance of Executive Directors and approved the terms of the Executive Directors' service contracts;
- reviewed the remuneration review procedures of the Group; and
- reviewed all transactions between the Group and the Directors.

The attendance of the meeting is as follows: Dr. Lee Peng Fei, Allen (1/1), Dr. Chan Yuen Tak Fai, Dorothy (1/1) and Mr. Kwong Ki Chi (1/1).

In order to be able to attract and retain staff of suitable calibre, the Company recognises the importance of a fair and competitive remuneration policy. To ensure that the remuneration packages are appropriate and align with the Group's goals, objectives and performance, the Company has considered a number of factors such as salaries paid by comparable companies, job responsibilities, duties and scope, market conditions and practices, financial and non-financial performance, and desirability of performance-based remuneration, when formulating the remuneration policy.

The remuneration package of Executive Directors includes salary, bonus, pensions, medical and life insurance benefits and share options. The remuneration level is determined with reference to the expertise and experience possessed by each Executive Director and his/her performance. Except for the bonus payable to the CEO which is determined with reference to the Group's performance, bonuses to other Executive Directors are given on a discretionary basis and determined with reference to the corporate and individual performance. The remuneration of Independent Non-Executive Directors is determined by the Board in consideration of the experience, expertise and the responsibilities involved. Please refer to note 14 to the financial statements for the emolument details of each Director, the five highest paid employees and also the remuneration paid to members of senior management by band.

The Company adopted a new share option scheme on 30 August 2013 to provide the Company with a platform to offer rewards and incentives to eligible participants for their contribution to the Group and to encourage them to work towards enhancing the value of the Company and its shares for the benefit of the Company and its shareholders as a whole. Please refer to pages 43 to 46 for the details of the share option schemes and the number of outstanding share options held by the Directors.

## Audit Committee

The Audit Committee is responsible to the Board and consists of the three Independent Non-Executive Directors, Dr. Lee Peng Fei, Allen, Dr. Chan Yuen Tak Fai, Dorothy and Mr. Kwong Ki Chi.

The Audit Committee is chaired by Mr. Kwong Ki Chi. The Audit Committee reviews the completeness, accuracy and fairness of the Company's reports and financial statements and provides assurance to the Board that they comply with the adopted accounting standards, the Listing Rules and legal requirements. The Audit Committee also annually reviews the adequacy and effectiveness of the internal control and risk management systems. It reviews the work done and the results of audits performed by the internal and external auditors, the relevant fees and terms, and the appropriate actions required on significant control weaknesses. It also considers the adequacy of resources, the qualifications and experience of staff in respect of the Group's accounting and financial reporting function, and their training programmes and budget. The Executive Directors and the external and internal auditors may also attend the Audit Committee meetings.

In response to the "Consultation conclusion on risk management and internal control: review of the corporate governance code and corporate governance report" issued by the Stock Exchange in December 2014 and the Revised Code, the Audit Committee also reviewed the roles of the Board, the Audit Committee and the management in the risk management of the Group. Since internal control is an integrated part of risk management, the Audit Committee is responsible for reviewing the Group's risk management system, as well as the financial controls and internal control system of the Group. The terms of reference of Audit Committee have been revised accordingly and they are available on the websites of the Company and the Stock Exchange.

# Corporate Governance Report

The major responsibilities of the Audit Committee are:

- being primarily responsible for making recommendations to the Board on the appointment, re-appointment and removal of the external auditors, and approving the remuneration and terms of engagement of the external auditors, and any questions of its resignation or dismissal;
- reviewing and monitoring the external auditors' independence and objectivity and the effectiveness of the audit process in accordance with applicable standards;
- developing and implementing policy on engaging external auditors to supply non-audit services;
- monitoring integrity of the Group's financial statements and annual report and accounts, interim report and reviewing significant financial reporting judgments contained therein;
- reviewing the Group's financial and accounting policies and practices, financial controls, internal control and risk management systems;
- discussing the risk management and internal control systems with management to ensure that management has performed its duty to have effective systems;
- ensuring co-ordination between the internal and external auditors, and ensuring that the internal audit function is adequately resourced and has appropriate standing within the Group, and reviewing and monitoring its effectiveness; and
- establishing a whistle-blowing mechanism for employees to raise concerns, in confidence, with the Audit Committee about possible improprieties in any matter related to the Group.

The Audit Committee held four meetings during the year ended 31 March 2016 to perform the following work:

- reviewed and approved the interim and final results and financial statements, announcements and reports of the Group;

- reviewed with the external auditors the significant financial reporting and accounting matters;
- reviewed and approved the set up of risk management system of the Group;
- reviewed the risk management and internal control review reports prepared by the internal auditors and discussed with management the reports' findings and recommendations on the Group's operations and corporate activities;
- approved the internal audit plans and the appointment and remuneration of the internal and external auditors;
- reviewed the engagement with the internal auditors in order to extend the scope of the engagement to risk management systems; and
- made recommendations to Board on the amendments to the terms of reference of Audit Committee.

The attendance of the four meetings is as follows: Mr. Kwong Ki Chi (4/4), Dr. Lee Peng Fei, Allen (4/4) and Dr. Chan Yuen Tak Fai, Dorothy (4/4).

## Nomination Committee

The Nomination Committee is chaired by an Independent Non-Executive Director, Dr. Chan Yuen Tak Fai, Dorothy, and comprises the other two Independent Non-Executive Directors, Dr. Lee Peng Fei, Allen and Mr. Kwong Ki Chi.

The Nomination Committee nominates and recommends to the Board candidates for filling vacancies in the Board. It also identifies and nominates qualified individuals, who are expected to have such expertise to make positive contribution to the performance of the Board, to be additional Directors or to fill Board vacancies as and when they arise. The major responsibilities of the Nomination Committee are:

- reviewing the structure, size and composition (including the skills, knowledge, experience and diversity considerations) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;

# Corporate Governance Report

- identifying individuals suitably qualified to become Board members and selecting or making recommendations to the Board on the selection of individuals nominated for directorships;
- assessing the independence of Independent Non-Executive Directors;
- making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman and the CEO; and
- implementing and reviewing the Board diversity policy for the Board's consideration, and monitoring the progress on achieving the objectives of the Board diversity policy to ensure effective implementation.

The terms of reference of the Nomination Committee are available on the websites of the Company and the Stock Exchange.

During the year ended 31 March 2016, the Nomination Committee held a meeting to perform the following work:

- reviewed the structure, size and composition (including the skills, knowledge, experience and diversity considerations) of the Board, and independence of the Independent Non-Executive Directors;
- considered and recommended the re-election of Mr. Wong Man Kit, Ms. Ng Sui Chun and Ms. Wong Wai Sum, May as the Executive Directors and Dr. Chan Yuen Tak Fai, Dorothy as the Independent Non-Executive Director;
- reviewed the diversity policy of the Group; and
- discussed the succession planning for the Directors and the CEO.

The Company recognises and embraces the benefits of having a diverse Board to enhance the effectiveness and quality of its performance and to maintain the high standards of corporate governance. Therefore, the Board set up a Board diversity policy in August 2013 in order to set out the approach to achieve diversity on the Board.

The Board diversity policy is summarised as below:

- The Company believes that a truly diverse Board will include and make good use of differences in the talents, skills, regional and industry experience and other qualities of the members of the Board;
- All appointments of the members of the Board are made on merit, in the context of the talents, skills and experience the Board as a whole requires to be effective; and
- In reviewing and assessing the composition of the Board, the Nomination Committee (i) will consider the benefits of all aspects of diversity in order to maintain an appropriate range and balance of talents, skills and experience on the Board; and (ii) may discuss and recommend measurable objectives to the Board for achieving diversity on the Board when necessary.

The Nomination Committee reviewed the Board's composition from a diversity perspective in March 2016 and concluded that the Board had achieved a satisfactory level of diversity in terms of gender, age, skill, industry experience and professional qualifications of the Directors. Biographical details of the Directors as at the date of this annual report are set out on pages 34 to 35 of this annual report.

The attendance of the meeting held during the year is as follows: Dr. Chan Yuen Tak Fai, Dorothy (1/1), Dr. Lee Peng Fei, Allen (1/1) and Mr. Kwong Ki Chi (1/1).

## Delegation of Responsibilities to Management

The Board delegates the daily management and administration functions to the management, comprising the Executive Committee and the senior management team of the Group. The senior management team is responsible for executing the day to day business activities under the leadership and supervision of the Executive Committee, and assisting the Executive Committee to implement the approved strategic plans, goals and objectives and other responsibilities delegated by the Board to the Executive Committee.

# Corporate Governance Report

## Company Secretary

All Directors should have access to the advice and services of the Company Secretary. The Company Secretary reports to the Chairman on board governance matters, and plays an important role in supporting the Board by ensuring Board procedures are followed and facilitating good information flows and communications among Directors as well as Shareholders and management. The Company Secretary is also responsible for advising the Board through the Chairman on governance matters and should also facilitate induction and professional development of Directors. The Company Secretary completed more than 15 hours of relevant professional training during the year ended 31 March 2016.

## External Auditors

The external auditors are primarily responsible for the auditing and reporting of the annual financial statements. For the financial year ended 31 March 2016, the total remuneration paid or payable to the external auditors was HK\$745,000, being HK\$603,000 for audit and HK\$142,000 for tax related services.

## Directors' and External Auditors' Responsibilities for the Financial Statements

The Directors are responsible for preparing the financial statements of the Company and of the Group. The financial statements are prepared on a going concern basis and give a true and fair view of the financial position of the Group as at 31 March 2016, and of the Group's financial performance and cash flows for the year then ended. In preparing the financial statements for the year ended 31 March 2016, the members of the Board have made reasonable judgments and estimates, adopted appropriate accounting policies and, apart from those new or revised accounting policies as disclosed in the notes to the financial statements for the year ended 31 March 2016, applied the policies consistently with the previous financial year.

The external auditors' responsibilities are clearly explained in the Independent Auditors' Report contained in this annual report. Please refer to pages 50 to 51 for details.

## Risk Management, Internal Control and Internal Audit

The Board has the overall responsibility in overseeing sound risk management and internal control systems and reviewing its effectiveness annually. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. For the year ended 31 March 2016, the Board confirms that it has through the Audit Committee conducted a review of the effectiveness of the Group's risk management and internal control systems and considers the systems are effective and adequate.

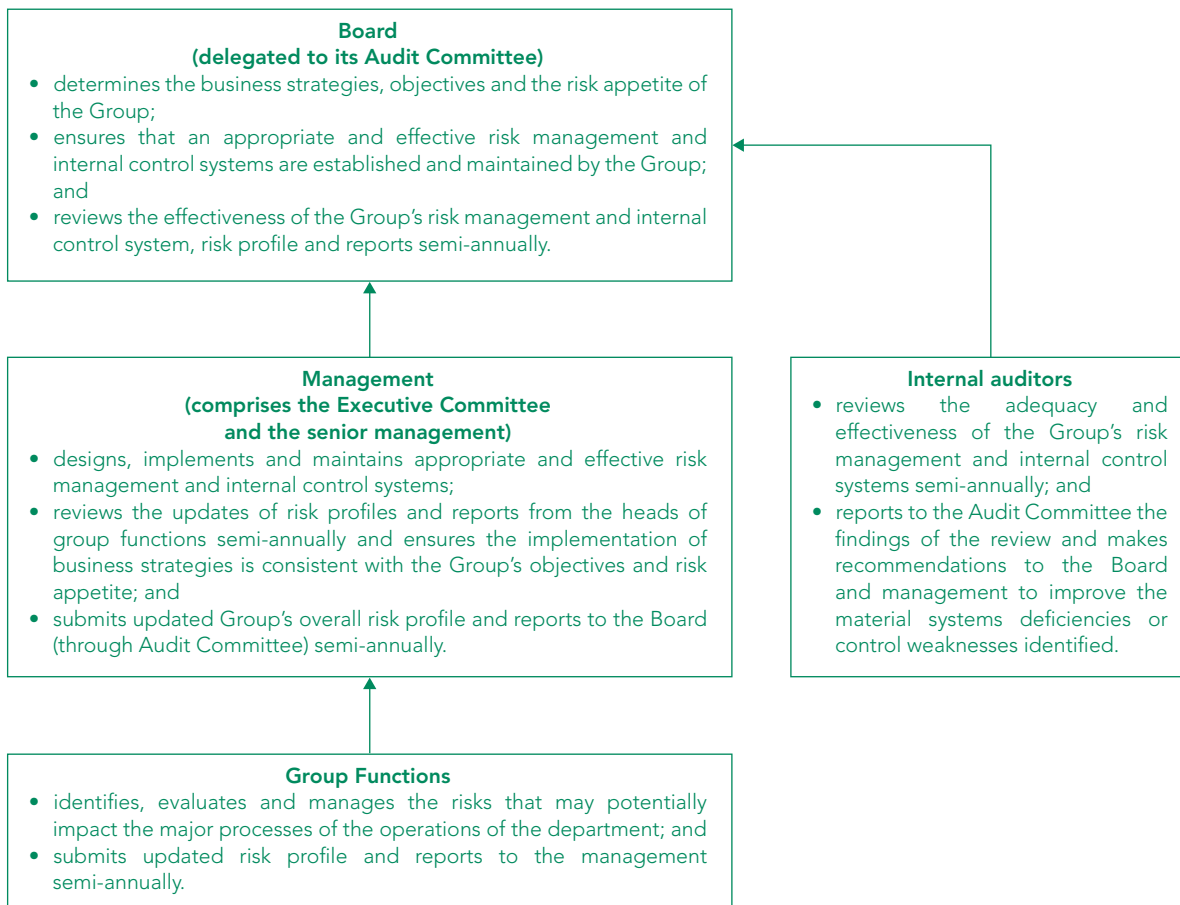

### Risk Management

The purposes of setting up a risk management system for the Group, which are documented in the risk management policy, are as follows:

- to establish a comprehensive risk management framework, processes and culture, and to ensure the Group's management to fully understand the material risks of the Group's business and operations so that they could prevent, avoid or mitigate possible risks which may exist in the market, business and the operations; and
- to ensure that business decisions and operations of the Group's could meet the policies laid down by the Board so that the Group could maintain long-term growth and sustainable development.

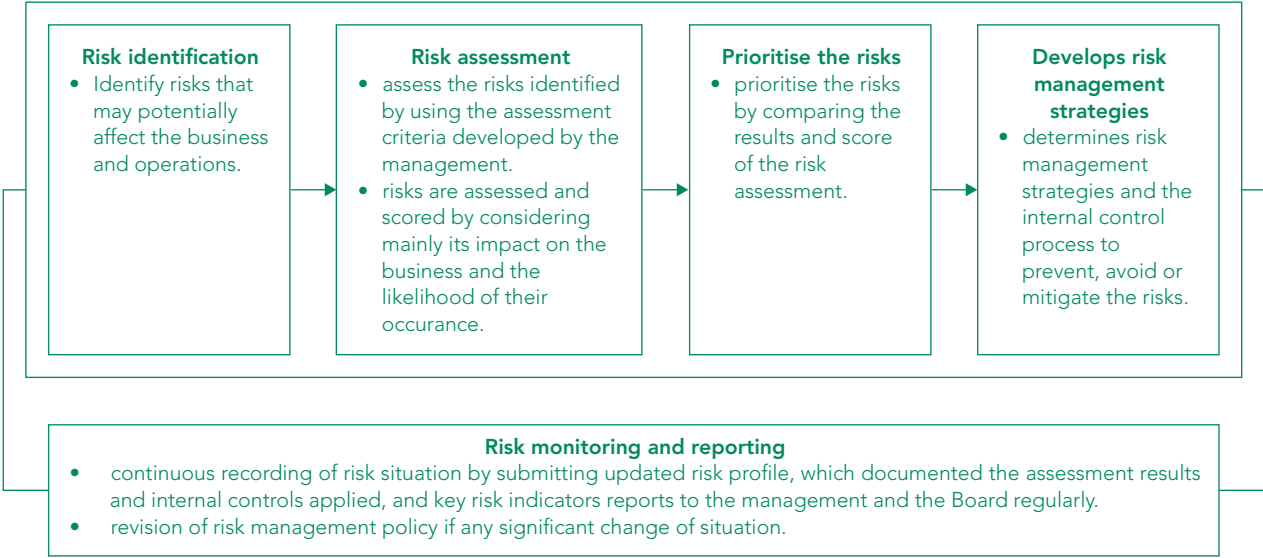

# Corporate Governance Report

The roles and responsibilities of the Board, the senior management, the group functions heads and the internal auditors in the Group risk management process are clearly defined in the Group's risk management policy. The ownership of each risk is clearly assigned to the group functions heads or other personnel in charge to enhance the accountability. The Group's risk governance structure and the main role and responsibilities of each level of the structure are summarised below:

# Corporate Governance Report

Under the Group’s risk management policy, the process used to identify, evaluate and manage significant risk is as follows:

The Audit Committee is delegated by the Board with responsibilities to oversee the Group’s overall risk management system. During the year ended 31 March 2016, regarding the risk management system, the Audit Committee performed the following work:

- Approved the Group’s risk management policies and other risk management system framework documents;
- Reviewed the adequacy and effectiveness of the risk management system design of the Group;
- Reviewed the updated risk assessment results and the risk profile of the Group; and
- Reviewed the result of risk management system review carried out by the internal auditors.

### Internal Control

The Group’s system of internal control includes a defined management structure with limits of authority, and is designed to help the Group achieve its business objectives, safeguard its assets against unauthorised use or disposal, ensure maintenance of proper accounting records for the provision of reliable financial information for internal use or for publication, and ensure compliance with relevant laws and regulations.

The key elements in the internal control system of the Group are:

- clearly defined organisational structure and duties and responsibilities of each employee;
- written code of conduct providing guidelines to the employees on their personal conduct and the ethical requirements when carrying out business activities;
- internal policies and/or guidelines on inside information disclosure, connected transactions reporting and approval, directors’ securities transactions etc.;
- bi-annual compliance check on the Code (also the Revised Code) carried out by the Company Secretary;
- a whistle-blowing mechanism for employees to raise concerns, in confidence, with the Audit Committee about possible improprieties related to the Group;
- regular risk assessments are carried out by the senior management;

# Corporate Governance Report

- stringent internal procedures on significant financial and business activities controls for minimising the operational risk;
- monthly financial and operational reporting system for measuring and monitoring the performance of the Group;
- monthly financial and operational summary reports for the Board to evaluate the financial performance of the Group;
- quarterly progress reports for the Board to monitor how the Group manages the areas that with higher level of business risks;
- bi-annual internal control review carried out by the outsourced internal auditors for monitoring the effectiveness of the controls; and
- annual Board performance evaluation for the Directors to review and evaluate the overall performance of the Board in the past year.

The Company is committed to complying with the disclosure requirements of the Listing Rules and Securities and Futures Ordinance (the “SFO”) to prevent inadvertent or selective disclosure of inside information. The Company, the Directors and its employees must take all reasonable steps to ensure that the relevant information is absolutely confidential before the publication of inside information.

The Company has adopted disclosure of inside information guidelines for the purpose of assisting the Directors and the employees to understand the principles and procedures in the handling of potential insider information of the Group. Employees are required to report to their functions heads and keep it confidential when they are aware of any information that is likely to have a material effect on the price of the shares of the Company. All such reports must be delivered to the CEO as soon as possible. The CEO must assess or seek legal advice on whether the reported information would constitute inside information. Where he considers appropriate, the CEO should report to the

Chairman immediately and the Chairman should convene Board meeting to seek the Board’s approval on the dissemination of the inside information as soon as possible.

The Directors and employees in possession of the inside information are prohibited to deal in any securities of the Company until the inside information is formally disclosed in the websites of the Stock Exchange and the Company. The Company should apply for trading halt or suspension of stock trading if they consider that the inside information has been leaked before a formal announcement is published.

## Internal Audit

The Group does not have an internal audit department. The internal audit function has been outsourced to professionals in accountancy, as selected by the Audit Committee. The internal auditors are independent of the Group and conduct internal audits on areas of concern identified by the Audit Committee annually. The term of the engagement of the internal auditors is fixed at three years in order to have a structured and comprehensive audit plan and achieve continuity. The internal auditors report to the Audit Committee directly and the members of the Audit Committee have free and direct access to the head of the internal auditor without reference to the Executive Directors or the management. The Board has overall responsibilities to maintain sound and effective risk management and internal control systems of the Group.

The internal auditors provides an independent review of the adequacy and effectiveness of the risk management and internal control systems and the sufficiency of the compliance of corporate governance in accordance with the Code and the Revised Code. A three-year audit plan framework, which is prepared based on risk assessment methodology and covers all material financial, operational and compliance controls and risk management functions, has been approved by the Audit Committee upon the engagement of the Internal auditors. Before commencing their fieldwork each year, the internal auditors submit a detailed audit plan to the Audit Committee for its discussion and approval. During the year, the risk management and internal control review covered the assessment of the effectiveness of the Group’s risk management and internal

# Corporate Governance Report

control systems by reference to a framework set by the Committee of Sponsoring Organisations of the Treadway Commission (the "COSO Framework"), which consists of five inter-related components, namely (i) control (or operating) environment; (ii) risk assessment; (iii) control activities; (iv) information and communication; and (v) monitoring. The review also covered significant business processes and activities of the Group and follow-ups of the corrective measures of the weaknesses identified in previous reviews.

Furthermore, in order to maintain the effectiveness of the financial reporting and compliance process, the risk management and internal control review also considered the adequacy of resources, staff qualification and experience, training programmes and budget of the Group's accounting and financial reporting function.

Any identified control weaknesses are addressed in the risk management and internal control review reports (the "Review Reports"). Draft Review Reports are sent to the Executive Directors, the CEO and the senior management concerned for the management's comments and responses. The finalised Review Reports are submitted to the Board and the Audit Committee for their review twice per year. The Board and the internal auditors considers that the Group's material internal controls are adequate and effective and the Group has complied with the code provisions on risk management and internal control set out in the Code and the Revised Code (since 1 January 2016) during the year 31 March 2016.

## Securities Transactions

The Company has adopted codes of conduct regarding securities transactions by Directors and relevant employees (as defined in the Code) (the "Securities Code") on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") contained in Appendix 10 of the Listing Rules. A copy of the Securities Code has been sent to each Director. The Securities Code is also applicable to the employees of the Group who are likely to be in possession of unpublished inside information in relation to the Group.

Formal written notices are sent to the Directors and relevant employees as reminder that they must not deal in the securities and derivatives of the Company during the period of 30 days and 60 days immediately preceding the date of publication of the Company's half yearly results and annual results respectively and until after such results have been published.

Under the Securities Code, the Directors are required to notify the Chairman and receive a dated written clearance before dealing in the securities and derivatives of the Company and, in the case of the Chairman himself, he must notify the designated Director and receive a dated written clearance before any dealing. The clearance to deal is valid for not more than five business days from the day it is received.

Having made specific enquiries, all Directors have confirmed that they have met the required standard set out in the Securities Code and the Model Code throughout the financial year under review. Directors' interests as at 31 March 2016 in the shares in the Company and its associated corporations (within the meaning of Part XV of the SFO) are set out on pages 40 to 42 of this annual report.

## Investor Relations

### Shareholders' Communication Policy

The Company continues to enhance relationships and communication with its investors. A shareholders' communication policy has been set up in order to enable the Company to provide its shareholders and potential shareholders with equal and timely information of the Company (including financial results, important developments, strategic goals and plans, corporate governance and risk profile etc.) at any time effectively and to avoid selective disclosure. Detailed information about the Company's performance and activities has been provided in the annual reports and the interim reports which have been sent to shareholders. The Company maintains close communication with investors, analysts, fund managers and the media by way of individual interviews and meetings. The Group also responds to requests, information and queries from the investors in an informative and timely manner.

# Corporate Governance Report

The Board also welcomes the views of shareholders on matters affecting the Group and encourages them to attend shareholders' meetings to communicate any concerns they might have with the Board or senior management directly. In order to promote effective communication, the Company maintains its website at [www.amspt.com](http://www.amspt.com) on which financial and other information relating to the Group and its businesses is disclosed.

Shareholders, potential investors and analysts may enquire about information of the Company, ask questions or give comments to the Board by sending email to the Company (e-mail address: [ir@amspt.com](mailto:ir@amspt.com)). The Company will answer reasonable questions raised by the shareholders and potential investors and analysts provided that there is no violation of the Company's disclosure of inside information guidelines. However, in order to avoid selective disclosure and disclosing inside information, the Company will only provide information that has been published by the Company.

## General Meetings

All Directors are invited to general meetings to develop a balanced understanding of the views of shareholders. For each substantially separate issue at a general meeting, a separate resolution is proposed by the chairman of that meeting.

The Chairman and the chairmen of the Audit Committee, Remuneration Committee, Nomination Committee and any other committees (as appropriate) attend the AGM and other relevant general meetings to answer questions raised by the shareholders. In their absence, the Chairman shall invite another member of the committees to attend. These persons will be available to answer questions at the AGM. The external auditors are also invited to the AGM to answer questions about the conduct of the audit, the preparation and content of the auditors' report, the accounting policies and auditor independence.

The attendance of the AGM held on 31 August 2015 is as follows:

Executive Directors: Mr. Wong Ling Sun, Vincent, chairman of the AGM (1/1), Mr. Wong Man Kit (1/1), Ms. Ng Sui Chun (1/1), Mr. Chan Man Chun, the CEO (1/1) and Ms. Wong Wai Sum, May (1/1); Independent Non-Executive Directors: Dr. Lee Peng Fei, Allen (1/1), Dr. Chan Yuen Tak Fai, Dorothy (1/1) and Mr. Kwong Ki Chi (1/1).

Convening General Meetings by Shareholders Shareholders may convene an EGM and make proposals for businesses to be transacted thereat in the following manner:

- (a) Any one or more shareholders holding at the date of deposit of the Requisition (as defined below) not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company (the "Eligible Shareholder(s)") shall at all times have the right, by written requisition (the "Requisition") sent to the principal place of business of the Company in Hong Kong at 11-12/F, Abba Commercial Building, 223 Aberdeen Main Road, Aberdeen, Hong Kong, for the attention of the Board or the Company Secretary, to require an EGM to be called by the Board for the transaction of any business specified in the Requisition.
- (b) The Requisition must state clearly the name(s) of the Eligible Shareholder(s) concerned, its/his/her/their shareholding in the Company as at the date of the Requisition, the reason for convening an EGM, the agenda proposed to be included and the details of the businesses proposed to be transacted at the EGM, signed by all the Eligible Shareholder(s) concerned.

# Corporate Governance Report

- (c) The Requisition will be verified with the Company's branch share registrar in Hong Kong, and upon its confirmation that the Requisition is proper and in order, the Company Secretary will ask the Board to convene an EGM to be held within two months after the deposit of the Requisition by serving sufficient notice in accordance with the Articles and the applicable laws, rules and regulations (including without limitation the Listing Rules) to all registered shareholders. On the contrary, if the Requisition has been verified as not in order, the Eligible Shareholder(s) concerned will be advised of such outcome and accordingly, the Board will not call an EGM.
- (d) If within 21 days of such deposit the Board fails to proceed to convene such EGM, the Eligible Shareholder(s) concerned itself/himself/herself/themselves may convene such EGM in the same manner, and all reasonable expenses incurred by the Eligible Shareholder(s) concerned as a result of such failure of the Board shall be reimbursed to the Eligible Shareholder(s) concerned by the Company.

Note: There is no express provision allowing shareholders to make proposals (other than a proposal for election of a person as a Director) at any general meeting convened by the Board (not on requisition of Shareholders) under the Articles or the laws of the Cayman Islands.

Ms. Ng Sui Chun

Mr. Chan Man Chun

Ms. Wong Wai Sum, May

### Independent Non-Executive Directors:

Dr. Lee Peng Fei, Allen

Dr. Chan Yuen Tak Fai, Dorothy

Mr. Kwong Ki Chi

In accordance with Article 86(3) and 87(1) of the Articles, the Executive Directors Mr. Wong Man Kit, Ms. Ng Sui Chun, Ms. Wong Wai Sum, May and the Independent Non-Executive Director Dr. Chan Yuen Tak Fai, Dorothy, will retire and, being eligible, offer themselves for re-election at the forthcoming AGM. Dr. Chan Yuen Tak Fai, Dorothy will complete her last 3-year appointment on the date of the AGM. If she is re-elected at the AGM, her appointment shall then continue for a period not more than three years and be subject to retirement by rotation and re-election at the subsequent AGMs in accordance with the Articles and the Listing Rules. As for the other two Independent Non-Executive Directors, Mr. Kwong Ki Chi and Dr. Lee Peng Fai, Allen, they have been appointed for a period of not more than three years starting from the dates of AGM 2014 and AGM 2015 respectively.

Pursuant to Rule 3.13 of the Listing Rules, the Company has received the annual confirmation of independence from each of the three Independent Non-Executive Directors and the Company considers the Independent Non-Executive Directors to be independent.

## Biographical Details of Directors and Senior Management

Brief biographical details of the Directors and senior management are set out on pages 34 to 36.

## Directors' Service Contracts

All of the service contracts of the Executive Directors, except for Ms. Wong Wai Sum, May, cover an initial term of three years, and will continue thereafter until terminated by either party giving to the other not less than six months' prior written notice expiring not earlier than the date of expiry of the initial term. The service contract of Ms. Wong Wai Sum, May, the Executive Director, will continue until terminated by either party giving to the other not less than six months' prior written notice.

All Independent Non-Executive Directors are appointed on terms not more than three years and subject to re-election according to the Articles. None of the Directors who is proposed for re-election at the AGM has service contract with the Company which is not determinable within one year without payment of compensation, other than statutory compensation.

The remuneration of the Directors and the details of the five highest-paid individuals of the Company are set out in note 14 to the financial statements.

## Directors' Interests in Transactions, Arrangements or Contracts

For the year ended 31 March 2016, some of the Directors had interests in the following transactions, arrangements or contracts of significance with the Group:

1. Mr. Wong Ling Sun, Vincent, Mr. Wong Man Kit, Ms. Ng Sui Chun and Ms. Wong Wai Sum, May (together with their family members, collectively the "Wong Family"), all being Executive Directors, were indirectly interested in a minibus leasing agreement dated 23 June 2014 entered into between Gurnard Holdings Limited, a wholly owned subsidiary of the Company, as lessee and Maxson Transportation Limited ("Maxson"), Hong Kong & China Transportation Consultants Limited ("HKCT"), Glory Success Transportation Limited ("Glory Success"), Big Three Limited ("Big Three") and Hong Kong Metropolitan Bus Limited ("HKMB") as lessors. The lessors are beneficially owned and controlled by the controlling shareholders, the Wong Family. Please refer to the section "Connected Transactions" of this Directors' Report for details; and
2. Aberdeen Maxicab Service Company Limited, a wholly owned subsidiary of the Company, entered into a sale and purchase agreement on 23 July 2015 with HKMB to purchase a new motor vehicle from HKMB at a consideration of approximately HK\$732,000. The consideration was satisfied by transferring a motor vehicle at a price of HK\$225,000 and paying cash of HK\$507,000 to HKMB. Mr. Wong Ling Sun, Vincent, Mr. Wong Man Kit and Ms. Ng Sui Chun, all being Executive Directors, were directly interested in this sale and purchase agreement as HKMB is beneficially owned and controlled by them.

Save for the above, no other transaction, arrangement or contract that is significant in relation to the Group's business to which the Company or any of its holding companies, subsidiaries or fellow subsidiaries was a party and in which a person who at any time during the year was a Director or his or her connected entity had, directly or indirectly, a material interest subsisted at any time during the year or as at the end of the year.

## Notes:

- (a) As at 31 March 2016, a total of 157,677,000 ordinary shares in the Company were held by Skyblue Group Limited ("Skyblue"), which is a wholly owned subsidiary of Metro Success Investments Limited ("Metro Success"). Metro Success is a wholly owned subsidiary of JETSUN UT Company (PTC) Limited ("JETSUN"), which is the trustee of The JetSun Unit Trust, of which 9,999 units are owned by HSBC International Trustee Limited ("HSBCITL") as trustee of The JetSun Trust and the remaining one unit is owned by Mr. Wong Ling Sun, Vincent. The entire issued share capital of JETSUN is owned by HSBCITL. Mr. Wong Man Kit is the settlor of The JetSun Trust, which is a discretionary trust and its discretionary objects include Mr. Wong Ling Sun, Vincent, Ms. Ng Sui Chun and Ms. Wong Wai Sum, May.
- (b) As at 31 March 2016, Mr. Wong Ling Sun, Vincent held 2,000,000 and 2,000,000 ordinary shares in the Company as trustee for the benefit of his sons Mr. Wong Tin Yan, Chace (a minor) and Mr. Wong Tin Yue, Noah (a minor) respectively.
- (c) Ms. Ng Sui Chun is one of the discretionary objects of The JetSun Trust and she personally held a long position of 11,731,300 ordinary shares and 860,000 share options in the Company as at 31 March 2016. As the spouse of Mr. Wong Man Kit, she was deemed to be interested in the long position of 2,396,000 ordinary shares and 860,000 share options in Company held by Mr. Wong Man Kit as at 31 March 2016.
- (d) All Wealth Limited ("All Wealth"), A.I. International Holdings Limited ("AIH"), Maxson and HKCT (collectively the "Associated Corporations") are associated corporations of the Company within the meaning of Part XV of the SFO by virtue of Metro Success's interests in the entire issued share capital of each of the Associated Corporations. Mr. Wong Man Kit, being the settlor of The JetSun Trust, and Mr. Wong Ling Sun, Vincent, Ms. Ng Sui Chun and Ms. Wong Wai Sum, May, being the discretionary objects of The JetSun Trust, are deemed to be interested in all the Associated Corporations.
- (e) The share options granted by the Company are physically settled equity derivatives.

Save as disclosed herein and other than certain shares in subsidiaries held as nominees by certain directors of the Group, none of the Directors and their associates have any interests or short positions in any shares, underlying shares and debentures in/of the Company or any of its associated corporations (within the meaning of the SFO) as recorded in the register required to be kept under section 352 of Part XV of the SFO or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code.

## Management Contracts

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the year ended 31 March 2016.

## Share Option Scheme

On 30 August 2013, the Company terminated the share option scheme adopted on 22 March 2004 (the "2004 Scheme") and adopted a new share option scheme (the "2013 scheme") on the same day to provide the Company with a platform to offer rewards and incentives to eligible participants for their contribution to the Group and to encourage them to work towards enhancing the value of the Company and its shares for the benefit of the Company and its shareholders as a whole.

### The 2004 Scheme

After the termination of the 2004 Scheme, no further options shall be offered under the 2004 Scheme but the provisions of the 2004 Scheme in all other respects shall remain in full force to the extent necessary to give effect to the exercise of any outstanding options granted thereunder prior to such termination. All outstanding options granted under the 2004 Scheme prior to its termination shall continue to be valid and exercisable in accordance with the terms of the 2004 Scheme.

### The 2013 Scheme

The terms of the 2013 Scheme are substantially similar to the 2004 Scheme. The details of the 2013 Scheme are summarised as follows:

(a) **Purpose of the 2013 Scheme**

The purpose of the 2013 Scheme is to enable the Group to grant options to selected participants as incentives for their contribution to the Group.

(b) **Participants of the 2013 Scheme**

Pursuant to the 2013 Scheme, the Directors may, at their absolute discretion, invite any person belonging to any of the following classes of participants, to take up options to subscribe for the shares:

- (i) any employee or proposed employee (whether full-time or part-time and including any Executive Director), consultant or adviser of or to the Company, any of its subsidiaries or any entity in which the Group holds an equity interest (the "Invested Entity");
- (ii) any non-executive director (including Independent Non-Executive Director) of the Company, any of its subsidiaries or any Invested Entity;
- (iii) any supplier of goods or services to any member of the Group or any Invested Entity;
- (iv) any customer of the Group or any Invested Entity;
- (v) any person or entity that provides research, development or other technological support to the Group or any Invested Entity; and
- (vi) any shareholder of any member of the Group or any Invested Entity or any holder of any securities issued by any member of the Group or any Invested Entity;

and for the purpose of the 2013 Scheme, the options may be granted to any company wholly owned by one or more persons belonging to any of the above classes of participants. The eligibility of the above classes of participants to the grant of options shall be determined by the Directors from time to time with reference to the relevant participants' contribution to the development and growth of the Group.

(c) **Total number of shares available for issue under the 2013 Scheme**

The total number of shares which may be issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the 2013 Scheme and any other share option scheme of the Company) to be granted under the 2013 Scheme and any other share option scheme of the Company must not in aggregate exceed 10% of the shares in issue as at the date of approval of the 2013 Scheme by the shareholders of the Company (the "Scheme Mandate Limit"). The Company may seek approval of its shareholders in general meeting to refresh the Scheme Mandate Limit subject to requirements under Chapter 17 of the Listing Rules provided that the total number of shares which may be issued upon exercise of all options to be granted under the 2013 Scheme under the Scheme Mandate Limit as refreshed must not exceed 10% of the shares in issue as at the date of approval of the refreshed limit. The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2013 Scheme and any other share option scheme of the Group must not in aggregate exceed 30% of the issued share capital of the Company from time to time.

The Scheme Mandate Limit under the 2013 Scheme is up to 26,612,500 shares, representing 10% of the issued shares of the Company as at 30 August 2013, the date of approval of the 2013 Scheme.

(d) **Maximum entitlement of each participant**

Unless approved by the shareholders of the Company, the total number of shares issued or to be issued upon exercise of the options granted to each participant of the 2013 Scheme (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue at the material time.

(e) **Time of exercise of options**

An option may be exercised in accordance with the terms of the 2013 Scheme at any time during a period to be determined and notified by the Directors to each grantee of the 2013 Scheme, or in the absence of such determination, a period commencing on a day upon which the offer for grant of the option is accepted and ending on the earlier of either the date on which such option lapses under the relevant provisions of the 2013 Scheme or 10 years from the date of offer of the option, subject to the provisions on early termination set out in the 2013 Scheme.

(f) **Minimum period for which an option must be held before it can be exercised**

The Directors have the absolute discretion to fix the minimum period for which an option must be held before it can be exercised.

(g) **Payment on acceptance of option**

Pursuant to the 2013 Scheme, a nominal consideration of HK\$1.00 is payable on acceptance of the grant of an option.

(h) **Basis of determining the subscription price**

The subscription price of a share in respect of any particular option granted under the 2013 Scheme shall be such price as the Directors in their absolute discretion may determine, save that such price must not be less than the highest of (i) the nominal value of the share, (ii) the average of the closing prices of the share as stated in the Stock Exchange's daily quotations sheet for the five consecutive trading days immediately preceding the date of grant of the option; and (iii) the closing price of the share as stated in the Stock Exchange's daily quotations sheet on the date of grant of the option (which must be a trading day).

# Directors' Report

## (i) Remaining life of the 2013 Scheme

The 2013 Scheme will continue to be in full force and effect until 29 August 2023 (i.e. 10 years from the date on which the 2013 Scheme was adopted) unless terminated earlier by the Company by resolution passed in general meeting. After expiration or termination (as the case may be), no further options shall be offered but options granted prior thereto shall continue to be valid and exercisable in accordance with the provisions of the 2013 Scheme.

Details of the outstanding share options of the Company as at 31 March 2016 are as follows:

Name of grantees	Date of grant (note (a)) (d/m/y)	Number of share options granted	Period during which rights are exercisable (d/m/y)	Exercise price per share option (HK\$)	Outstanding as at 1 April 2015	Number of share options granted during the year	Number of share options exercised during the year	Number of share options lapsed during the year	Outstanding as at 31 March 2016

- (b) Mr. Wong Man Chiu, the engineering manager of the Group, is the brother and thus the associate of Mr. Wong Man Kit, the honorary chairman and Executive Director of the Company.
- (c) The closing prices of each share immediately before the date of grant of 20 October 2011 and 23 September 2015 were HK\$1.60 and HK\$1.25 respectively.
- (d) All outstanding share options were vested immediately on the date of grant.
- (e) During the year ended 31 March 2016, 8,428,000 share options were granted on 23 September 2015 and the total consideration received thereof was HK\$36. Based on the Binomial model, the total value of these share options on the date of grant was HK\$1,433,000, of which HK\$907,000 was the value of share options granted to the Directors and their associates and the remaining HK\$526,000 was the value of share options granted to continue contract employees. The significant inputs into the model are as follows:

Closing price of the share on the date of grant	HK\$1.25
Exercise price	HK\$1.25
Annual risk-free interest rate	1.802%
Expected annual dividend yield	6.98%
Expected option life	10 years
Expected annual volatility	23.74%

The underlying expected annual volatility was determined by reference to the historical data calculated based on the expected life of share options. The expected annual dividend yield was calculated based on historical dividends. The fair values calculated are inherently subjective and uncertain due to the assumptions made and the limitations of the model used. The value of a share option varies with different variables of certain subjective assumptions. Any change in variables so adopted may materially affect the estimation of the fair value of a share option.

- (f) For the accounting policy adopted for the share options, please refer to the note 2.17 of the financial statements of this annual report.

## Major Customers and Suppliers

The five largest customers of the Group accounted for less than 30% of the Group's total revenue for the year ended 31 March 2016.

## Connected Transactions

Significant related party transactions entered into by the Company during the year ended 31 March 2016, constituting connected transactions under the Listing Rules which are required to be disclosed in accordance with Chapter 14A of the Listing Rules are as follows:

	2016 HK\$'000	2015 HK\$'000
Continuing connected transactions:		
PLB hire charges paid to related companies	69,587	70,224
Administration fee income received from related companies	2,327	2,327

Pursuant to a minibus leasing agreement dated 23 June 2014, the PLB hire charges disclosed above, after deduction of administration fee income, payable to Maxson, HKCT, Glory Success, HKMB and Big Three, all of them are beneficially owned and controlled by the Wong Family, constitute continuing connected transactions of the Company.

In accordance with Rule 14A.55 of the Listing Rules, the Independent Non-Executive Directors have reviewed, approved and confirmed that:

- the foregoing continuing connected transactions were entered into:
  - in the ordinary and usual course of business of the Group;
  - on normal commercial terms or better; and
  - according to the respective agreements governing them on terms that are fair and reasonable and in the interests of the Company's shareholders as a whole; and
- the aggregate amount for the year ended 31 March 2016 payable by the Company under the minibus leasing agreement dated 23 June 2014, after deduction of administration fee income received, did not exceed HK\$74,308,000, the annual cap in accordance with an ordinary resolution passed in AGM held on 28 August 2014.

The Company's auditors were engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditors have issued their unqualified letter containing their findings and conclusions in respect of the foregoing continuing connected transactions in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditors' letter has been provided by the Company to the Stock Exchange.

All the interests disclosed above represent the long position in the shares.

Save as disclosed herein, the Company has not been notified of any other person (other than a Director and the CEO) having an interest or a short position in the shares and/or underlying shares of the Company as recorded in the register required to be kept by the Company pursuant to Section 336 of the SFO as at 31 March 2016.

## Model Code for Securities Transactions by Directors

The Company has adopted codes of conduct regarding securities transactions by Directors and relevant employees on terms no less exacting than the required standard set out in the Model Code contained in Appendix 10 of the Listing Rules throughout the year ended 31 March 2016. Having made specific enquiries, all Directors have confirmed that they have complied with the required standard set out in the Securities Code and Model Code throughout the financial year under review.

## Corporate Governance

The Company has complied with the provisions of the code as set out in Appendix 14 "Corporate Governance Code and Corporate Governance Report" of the Listing Rules (the "Code") for the year ended 31 March 2016, including those amendments to the Code which came into effect from 1 January 2016. A report on the principal corporate governance practices adopted by the Company is set out on pages 18 to 33 of this Annual Report.

# Directors' Report

## Sufficiency of Public Float

Based on information that is publicly available to the Company and to the best knowledge of the Directors, the Directors confirm that the Company has maintained sufficient public float as required by the Listing Rules as at the date of this annual report.

## Audit Committee

The Company has an Audit Committee which was established in accordance with the requirements of the Code under the Listing Rules and guidance published by the HKICPA. The primary duties of the Audit Committee are to review and supervise the financial reporting process and internal control system of the Group. The Audit Committee comprises three Independent Non-Executive Directors and one of them possesses appropriate accounting or financial management expertise. An Audit Committee meeting was held on 28 June 2016 to review the Group's annual financial statements and annual results announcement, and to provide advice and recommendations to the Board.

## Pre-Emptive Rights

There is no provision for pre-emptive rights under the Articles and there is no restriction against such rights under the laws of the Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to its existing shareholders.

## Permitted Indemnity

Subject to the applicable laws, every Director and other officers of the Company shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses may be incurred by him/her in the execution of his/her duties or in relation thereto pursuant to the Articles. Such provisions were in force during the course of the year ended 31 March 2016 and remained in force as of the date of this report. The Company has maintained appropriate directors and officers liability insurance in respect of relevant legal actions against the Directors.

## Purchase, Sale or Redemption of the Company's Listed Securities

During the year ended 31 March 2016, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

## Auditors

The accompanying financial statements have been audited by Grant Thornton Hong Kong Limited. A resolution will be submitted in the AGM to re-appoint Grant Thornton Hong Kong Limited as the auditors of the Company.

**To the members of**  
**AMS Public Transport Holdings Limited**  
*(incorporated in the Cayman Islands with limited liability)*

We have audited the consolidated financial statements of AMS Public Transport Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 52 to 95, which comprise the consolidated balance sheet as at 31 March 2016, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

## Directors' Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Notes to the Financial Statements

For the year ended 31 March 2016

## 1. General Information

AMS Public Transport Holdings Limited (the “Company”) was incorporated in the Cayman Islands on 18 March 2003 as an exempted company with limited liability under the Companies Law, Cap.22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The addresses of its registered office and principal place of business are disclosed in the Company Information section of the annual report. The shares of the Company have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 15 April 2004.

The Company’s immediate holding company is Skyblue Group Limited, a company incorporated in the British Virgin Islands. The directors regard JETSUN UT Company (PTC) Limited, a company incorporated in the British Virgin Islands, as being the ultimate holding company of the Company.

The Company is an investment holding company and its subsidiaries are principally engaged in the provision of franchised public light bus (“PLB”) transportation services in Hong Kong.

The financial statements for the year ended 31 March 2016 were approved for issue by the board of directors on 28 June 2016.

## 2. Summary of Significant Accounting Policies

### 2.1 Basis of preparation

The financial statements on pages 52 to 95 have been prepared in accordance with the Hong Kong Financial Reporting Standards (“HKFRSs”). The term HKFRSs includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the accounting principles generally accepted in Hong Kong.

The financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”).

In addition, the amendments to the Listing Rules relating to disclosure of financial information with reference to the requirements of Part 9 “Accounts and Audit” of the Hong Kong Companies Ordinance (Cap. 622) come into operation during the financial year, as a result, there are changes to presentation and disclosures of certain information in the financial statements.

The significant accounting policies that have been used in the preparation of these financial statements are summarised below. These policies have been consistently applied to all the years presented unless otherwise stated. The adoption of new or amended HKFRSs and the impacts on the Group’s financial statements, if any, are disclosed in note 3.

The financial statements have been prepared on the historical cost basis except for PLB licences which are stated at fair values. The measurement bases are fully described in the accounting policies below.

It should be noted that accounting estimates and assumptions are used in preparation of the financial statements. Although these estimates are based on management’s best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4.

# Notes to the Financial Statements

For the year ended 31 March 2016

## 2. Summary of Significant Accounting Policies (Continued)

### 2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries (together referred to as the “Group”) made up to 31 March each year.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are excluded from consolidation from the date that control ceases.

Intra-group transactions, balances and unrealised gains and losses on transactions between group companies are eliminated in preparing the consolidated financial statements. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from the Group’s perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

### 2.3 Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

In consolidated financial statements, acquisition of subsidiaries (other than those under common control) is accounted for using the acquisition method. This involves the estimation of fair value of all identifiable assets and liabilities, including contingent liabilities of the subsidiary, at the acquisition date, regardless of whether or not they were recorded in the financial statements of the subsidiary prior to acquisition. On initial recognition, the assets and liabilities of the subsidiary are included in the consolidated balance sheet at their fair values.

In the Company’s balance sheet, subsidiaries are carried at cost less any impairment losses unless the subsidiary is held for sale or included in a disposal group. Cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable at the balance sheet date. All dividends whether received out of the investee’s pre or post acquisition profits are recognised in the Company’s income statement.

### 2.4 Foreign currency translation

The financial statements are presented in Hong Kong dollars (HK\$), which is also the functional currency of the Company.

In the individual financial statements of the consolidated entities, foreign currency transactions are translated into the functional currency of the individual entity using the exchange rates prevailing at the dates of the transactions. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at that date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the balance sheet date retranslation of monetary assets and liabilities are recognised in the income statement.

# Notes to the Financial Statements

For the year ended 31 March 2016

## 2. Summary of Significant Accounting Policies (Continued)

### 2.4 Foreign currency translation (Continued)

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined and are reported as part of the fair value gain or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

### 2.5 Property, plant and equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and accumulated impairment losses. The cost of asset comprises its purchase price and any directly attributable cost of bringing the asset to its working condition and location for its intended use.

Depreciation is provided to write off the cost less their residual values over their estimated useful lives, using the straight-line method as follows:

Land	Over the remaining lease terms
Buildings	Not more than 50 years
Leasehold improvements	5 years and the lease term, whichever is the shorter
Furniture, fixtures and equipment	5 years
PLBs and public buses	10 years
Motor vehicles	10 years

The assets' residual values, depreciation method and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

The gain or loss arising on retirement or disposal is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other costs, such as repairs and maintenance are charged to the income statement during the accounting period in which they are incurred.

### 2.6 PLB licences

PLB licences, which represent freely-transferable licences to provide PLB transportation services in Hong Kong, are stated in the balance sheet at open market value to be assessed at least annually by the directors and/or independent qualified valuers, less accumulated impairment losses, if any. Changes arising on the revaluation of PLB licences are generally recognised in other comprehensive income and accumulated in PLB licences revaluation reserve, except that (i) when a deficit arises on revaluation, it will be charged to the income statement, if and to the extent that it exceeds the amount held in the reserve in respect of that same licence immediately prior to the revaluation; and (ii) when a surplus arises on revaluation, it will be credited to the income statement, if and to the extent that a deficit on revaluation in respect of that same licence had previously been charged to the income statement.

# Notes to the Financial Statements

For the year ended 31 March 2016

## 2. Summary of Significant Accounting Policies (Continued)

### 2.6 PLB licences (Continued)

The directors consider that the PLB licences have indefinite useful lives. In addition, there is an open market for PLB licences and the Group does not foresee any indicators that the residual value of each licence will be less than its prevailing market price. Accordingly, PLB licences are not amortised. The useful life of PLB licence is subject to annual assessment to determine whether events and circumstances continue to support an indefinite useful life for such asset.

On disposal of PLB licences, the related portion of surpluses previously taken to the PLB licences revaluation reserve is transferred to retained profits and is shown as a movement in reserves.

### 2.7 Public bus licences

Public bus licences acquired by the Group are regarded to have indefinite useful lives and are stated in the balance sheet at cost less accumulated impairment losses.

### 2.8 Goodwill

Goodwill represents the excess of (i) aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and fair value of the Group's previously held equity interest in the acquiree; over (ii) the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquired subsidiary at the date of acquisition.

When (ii) is greater than (i), then this excess is recognised immediately in income statement as a gain on bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash-generating unit and is tested annually for impairment.

On subsequent disposal of a subsidiary, the attributable amount of goodwill capitalised is included in the determination of the amount of gain or loss on disposal.

### 2.9 Financial assets

The Group's financial assets include loans and receivables. Management determines the classification of its financial assets at initial recognition depending on the purpose for which the financial assets were acquired and where allowed and appropriate, re-evaluates this designation at every balance sheet date.

All financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the instrument. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

Derecognition of financial assets occurs when the rights to receive cash flows from the investments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.

At each balance sheet date, financial assets are reviewed to assess whether there is objective evidence of impairment. If any such evidence exists, impairment loss is determined and recognised based on the classification of the financial asset.

## 2. Summary of Significant Accounting Policies (Continued)

### 2.9 Financial assets (Continued)

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortised cost using the effective interest method, less any impairment losses. Amortised cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction cost.

#### Impairment of financial assets

At each balance sheet date, financial assets other than at fair value through profit or loss are reviewed to determine whether there is any objective evidence of impairment.

Objective evidence of impairment of individual financial assets includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

Loss events in respect of a group of financial assets include observable data indicating that there is a measurable decrease in the estimated future cash flows from the group of financial assets. Such observable data includes but not limited to adverse changes in the payment status of debtors in group and, national or local economic conditions that correlate with defaults on the assets in the group.

If any such evidence exists, the impairment loss is measured and recognised as follows:

#### Financial assets carried at amortised cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The amount of the loss is recognised in the income statement of the period in which the impairment occurs.

## 2. Summary of Significant Accounting Policies (Continued)

### 2.9 Financial assets (Continued)

If, in subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that it does not result in a carrying amount of the financial asset exceeding what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in the income statement of the period in which the reversal occurs.

Impairment losses on financial assets other than trade receivables that are stated at amortised cost, are written off against the corresponding assets directly. Where the recovery of trade receivables is considered doubtful but not remote, the impairment losses for doubtful receivables are recorded using an allowance account. When the Group is satisfied that recovery of trade receivable is remote, the amount considered irrecoverable is written off against trade receivables directly and any amounts held in the allowance account in respect of that receivable are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in the income statement.

### 2.10 Cash and cash equivalents

Cash and cash equivalents include cash at bank and in hand and short-term bank deposits.

### 2.11 Financial liabilities

The Group's financial liabilities include bank loans, trade and other payables.

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. All interest related charges are recognised in accordance with the Group's accounting policy for borrowing costs. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amount is recognised in the income statement.

#### Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

#### Trade and other payables

Trade and other payables are recognised initially at their fair values and subsequently measured at amortised cost, using the effective interest method.

### 2.12 Leases

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

#### (i) Operating lease charges as the lessee

Where the Group has a right to use of assets held under operating leases, payments made under the leases are charged to the income statement on a straight-line basis over the lease terms except where an alternative basis is more representative of the time pattern of benefits to be derived from the leased assets. Lease incentives received are recognised in the income statement as an integral part of the aggregate net lease payments made.

#### (ii) Assets leased out under operating leases as the lessor

Assets leased out under operating leases are measured and presented according to the nature of the assets. Initial direct costs in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the rental income.

Rental income receivable from operating leases is recognised in the income statement on a straight-line basis over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in income statement as an integral part of the aggregate net lease payments receivable.

### 2.13 Share capital

Ordinary shares are classified as equity. Share capital is determined using the nominal value of shares that have been issued.

Any transaction costs associated with the issuing of shares are deducted from share premium (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction.

### 2.14 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for rendering of services and the use by others of the Group's assets yielding rental income and interest. Provided it is probable that the economic benefits will flow to the Group and the revenue and cost, if applicable, can be measured reliably, revenue is recognised as follows:

Services income is recognised upon provision of the franchised PLB and residents' bus services.

Administration fee income, advertising income, repair and maintenance service income and management fee income are recognised upon provision of the relevant services.

Interest income is recognised on an accrual basis using the effective interest method.

## 2. Summary of Significant Accounting Policies (Continued)

### 2.15 Government grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. Government grants are deferred and recognised in income statement over the period necessary to match them with the costs that the grants are intended to compensate. Government grant relating to the purchase of property, plant and equipment is accounted for by deducting the grant in arriving at the carrying amount of the asset. The government grant is recognised as income over the life of the related asset by way of a reduced depreciation charge.

### 2.16 Impairment of non-financial assets

Property, plant and equipment, PLB licences, public bus licences, goodwill and interest in subsidiaries are subject to impairment testing.

Goodwill and other intangible assets with an indefinite useful life or those not yet available for use are tested for impairment at least annually, irrespective of whether there is any indication that they are impaired. All other assets are tested for impairment whenever there are indications that the asset's carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs of disposal, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a cash-generating unit). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill in particular is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which the goodwill is monitored for internal management purpose and not be larger than an operating segment.

Impairment losses recognised for cash-generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the cash generating unit, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal, or value in use, if determinable.

An impairment loss on goodwill is not reversed in subsequent periods. In respect of other assets, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### 2.17 Employee benefits

#### Retirement benefits

Retirement benefits to employees are provided through defined contribution plans.

The Group operates defined contribution Mandatory Provident Fund retirement benefits scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance since December 2000, for all of its employees who are eligible to participate in the MPF Scheme. Prior to that, the Group ran a defined contribution scheme which was registered under the Occupational Retirement Schemes Ordinance (the “ORSO Scheme”) and ceased since the commencement of the MPF Scheme.

The Group, as employers, and the employees are each required to make regular mandatory contributions calculated at 5% of the employee’s relevant income to the MPF scheme, subject to a cap of monthly relevant income of HK\$30,000. Contributions made by the Group are recognised as an expense in the income statement. The Group’s obligations under these plans are limited to the fixed percentage contributions payable.

#### Short-term employee benefits

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

Non-accumulating compensated absences such as sick leave and maternity leave are not recognised until the time of leave.

#### Share-based compensation

The Group operates an equity-settled, share-based compensation plan for remuneration of its employees. The fair value of the employee services received in exchange for the grant of share options is recognised as an expense, with a corresponding increase in the share options reserve in equity. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. At each balance sheet date, the Group revises its estimates of the number of options that are expected to vest. It recognises the impact of the revision of original estimates, if any, in the income statement, and a corresponding adjustment to equity.

The proceeds received, net of any directly attributable transaction costs, are credited to share capital (nominal value) and share premium when the options are exercised.

### 2.18 Borrowing costs

Borrowing costs incurred for the acquisition, construction or production of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are expensed when incurred.

### 2.19 Accounting for income taxes

Income tax comprises current tax and deferred tax.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting period, that are unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognised as a component of tax expense in the income statement.

Deferred tax is calculated using the liability method on temporary differences at the balance sheet date between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, tax losses available to be carried forward as well as other unused tax credits, to the extent that it is probable that taxable profit, including existing taxable temporary differences, will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither taxable nor accounting profit or loss.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax is calculated, without discounting, at tax rates that are expected to apply in the period the liability is settled or the asset realised, provided they are enacted or substantively enacted at the balance sheet date.

Changes in deferred tax assets or liabilities are recognised in the income statement, or in other comprehensive income or directly in equity if they relate to items that are charged or credited directly to other comprehensive income or directly in equity.

Current tax assets and current tax liabilities are presented in net if, and only if,

- (a) the Group has the legally enforceable right to set off the recognised amounts; and
- (b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

## 2. Summary of Significant Accounting Policies (Continued)

### 2.19 Accounting for income taxes (Continued)

The Group presents deferred tax assets and deferred tax liabilities in net if, and only if,

- (a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - (i) the same taxable entity; or
  - (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### 2.20 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer (or guarantor) to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Where the Group issues a financial guarantee, the fair value of the guarantee is initially recognised as deferred income within trade and other payables. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in income statement on initial recognition of any deferred income.

The amount of the guarantee initially recognised as deferred income is amortised in income statement over the term of the guarantee as income from financial guarantees issued. In addition, provisions are recognised if and when it becomes probable that the holder of the guarantee will call upon the Group under the guarantee and the amount of that claim on the Group is expected to exceed the current carrying amount i.e. the amount initially recognised less accumulated amortisation, where appropriate.

### 2.21 Segment reporting

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the executive directors for their decisions about resources allocation to the Group's business components and for their review of the performance of those components. The business components in the internal financial information reported to the executive directors are determined based on the Group's major service lines.

The only operating segment of the Group is the franchised PLB and residents' bus services.

### 2.22 Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
- (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

## 3. Adoption of New or Amended HKFRSs

In the current year, the Group has applied for the first time the following new amendments to HKFRSs issued by the HKICPA, which are relevant to and effective for the Group's financial statements for the annual period beginning on 1 April 2015:

Annual Improvements Project	Annual Improvements to HKFRSs 2010–2012 Cycle
Annual Improvements Project	Annual Improvements to HKFRSs 2011–2013 Cycle

The adoption of the amended HKFRSs had no material impact on how the results and financial position for the current and prior periods have been prepared and presented.

The Group has not early adopted the following new and revised HKFRSs which have been issued and are relevant to the Group's financial statements but are not yet effective for the current accounting period:

HKAS 1 Amendments	Disclosure Initiative <sup>(1)</sup>
HKAS 16 and HKAS 38 Amendment	Clarification of Acceptable Methods of Depreciation and Amortisation <sup>(1)</sup>
HKAS 27 Amendments	Equity Method in Separate Financial Statements <sup>(1)</sup>
HKFRS 9	Financial Instruments <sup>(2)</sup>
HKFRS 15	Revenue from Contracts with Customers <sup>(2)</sup>
HKFRS 16	Leases <sup>(3)</sup>
Annual Improvements Project	Annual Improvements to HKFRSs 2012–2014 Cycle <sup>(2)</sup>

<sup>(1)</sup> Effective for annual periods beginning on or after 1 January 2016

<sup>(2)</sup> Effective for annual periods beginning on or after 1 January 2018

<sup>(3)</sup> Effective for annual periods beginning on or after 1 January 2019

The directors anticipate that all of the pronouncements will be adopted in the Group's accounting policy for the first period beginning after the effective date. The Group is yet to assess HKFRS16's full impact. Other than that, the adoption of the above new and revised HKFRSs is not expected to have a material impact on the Group's financial statements. All other HKFRSs issued but not yet effective are not likely to have a significant impact on the Group's financial statements.

## 4. Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the actual results. Estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

### Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 2.16. The recoverable amounts of cash-generating units have been determined based on value in use calculations. These calculations require the use of estimates (note 18).

### Estimated fair value of PLB licences

The PLB licences were revalued on an open market basis on 31 March 2016 by independent qualified valuers with reference to recent market-quoted prices. As described in note 16, the estimation of fair value also includes assumptions such as government policies for PLB businesses remained unchanged and continuous existence of an open market for PLB licences.

### Estimated impairment of public bus licences

The Group tests annually whether public bus licences have suffered any impairment, in accordance with the accounting policy stated in note 2.16. The recoverable amount of a public bus licence has been determined based on value in use calculations. These calculations require the use of estimates (note 17).

## 5. Segment Information

The only operating segment of the Group is the franchised PLB and residents' bus services. No separate analysis of the reportable segment results by operating segment is necessary.

Since the Group's revenue and non-current assets are attributed to Hong Kong, which is also the place of domicile as the Group only engages its business in Hong Kong, no geographical information is presented.

No individual customers contributed over 10% of the Group's revenue for the years ended 31 March 2016 and 2015.

## 12. Earnings/(Loss) per Share

### (a) Basic earnings/(loss) per share

The calculation of basic earnings/(loss) per share is based on the profit/(loss) attributable to equity holders of the Company of HK\$29,426,000 (2015: loss of HK\$22,902,000) and on the weighted average number of 266,125,000 (2015: 266,125,000) ordinary shares in issue during the year.

### (b) Diluted earnings/(loss) per share

The calculation of diluted earnings/(loss) per share is based on the profit/(loss) attributable to equity holders of the Company and the weighted average number of ordinary shares in issue during the year after adjusting for the effects of all dilutive potential ordinary shares.

Diluted loss per share is the same as basic loss per share for the year ended 31 March 2015, as the share options have no dilutive effect on ordinary shares for the year because the exercise price of the Company's share options was higher than the average market price of the Company's share in the year.

Details of calculation of diluted earnings per share for the year ended 31 March 2016 are shown as follows:

	2016
Profit attributable to equity holders of the Company for the year (HK\$'000)	29,426
Weighted average number of ordinary shares in issue during the year (in thousands)	266,125
Effect of dilutive potential shares on exercise of share options (in thousands)	185
Weighted average number of ordinary shares used in calculating diluted earnings per share (in thousands)	266,310

## 14. Directors' Remuneration and Five Highest Paid Individuals (Continued)

### (b) Five highest paid individuals

The five individuals whose emoluments were the highest in the Group for the year include three (2015: two) directors whose emoluments are reflected in the analysis presented above. The emoluments payable to the remaining two (2015: three) individuals (one (2015: two) of them is the member of the senior management) during the year are as follows:

	2016 HK\$'000	2015 HK\$'000
Salaries, allowances and benefits in kind	1,759	2,388
Discretionary bonuses	318	366
Contributions to defined contribution plans	61	78
Share-based compensation	175	–
	<b>2,313</b>	2,832

The emoluments of these two (2015: three) individuals fell within the following bands:

	Number of individuals	
	2016	2015
<b>Emolument bands</b>		
Nil–HK\$1,000,000	1	2
HK\$1,000,001–HK\$1,500,000	1	1
	<b>2</b>	3

### (c) Emoluments of senior management

Other than the emoluments of the five highest paid individuals, which include one (2015: two) member of the senior management, disclosed in note 14(b), the emoluments of the remaining members of the senior management for the year fell within the following band:

	Number of individuals	
	2016	2015
<b>Emolument bands</b>		
Nil–HK\$1,000,000	2	1

## 16. PLB Licences

	2016 HK\$'000	2015 HK\$'000
At the beginning of the year	293,440	310,240
Deficit on revaluation charged to income statement (note 9)	(2,100)	(10,500)
Deficit on revaluation dealt with in revaluation reserve	(1,260)	(6,300)
At the end of the year	290,080	293,440

PLB licenses are regarded as having indefinite useful lives as there is no foreseeable limit to the period over which these assets are expected to generate net cash flows to the Group.

The carrying amount of PLB licences at the balance sheet date would have been HK\$266,893,000 (2015: HK\$268,993,000) had they been stated at cost less accumulated impairment losses.

At 31 March 2016, certain PLB licences with an aggregate carrying amount of HK\$238,280,000 (2015: HK\$235,800,000) were pledged as security for the Group's banking facilities (note 24).

### (i) Fair value hierarchy

The following table presents the fair value of the Group's PLB licences measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair Value Measurement. The level into which a fair value measurement is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured by using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured by using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured by using significant unobservable inputs.

	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
<b>Recurring fair value measurement of PLB licences:</b>				
As at 31 March 2016	–	290,080	–	290,080
As at 31 March 2015	–	293,440	–	293,440

## 16. PLB Licences (Continued)

### (i) Fair value hierarchy (Continued)

During the years ended 31 March 2016 and 2015, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

At the balance sheet dates, the PLB licences were revalued by Vigers Appraisal & Consulting Limited ("Vigers"), the independent qualified valuer. The fair value of PLB licences was determined under the market approach with reference to the average of recent market-quoted prices from different market dealers. As they were observable inputs which failed to meet Level 1, and there were not significant unobservable inputs used, the measurement was under Level 2 valuation hierarchy. The key assumptions under such approach include the continuous existence of an open market for PLB licences and the status-quo of the trends, market conditions and government policies for PLB industry. Vigers made these assumptions based on past performance and expectations on the market development.

## 17. Public Bus Licences

	2016 HK\$'000	2015 HK\$'000
At the beginning of the year	11,384	7,584
Additions	–	3,800
Provision for impairment (note 9)	(2,100)	–
At the end of the year	9,284	11,384
At the end of the year		
Gross carrying amount	11,384	11,384
Accumulated impairment	(2,100)	–
Net carrying amount	9,284	11,384

Public bus licenses are regarded as having indefinite useful lives as there is no foreseeable limit to the period over which these assets are expected to generate net cash flows to the Group and are stated in the consolidated balance sheet at cost less accumulated impairment losses.

The recoverable amount of the public bus licences is determined on value in use basis. Value in use calculation uses cash flow projections based on financial budgets covering a 5-year period. Assuming that the government policies for the public bus industry remain unchanged, the management determines the key assumptions including budgeted revenue and operating costs based on past performance of the public bus licences, the general price inflation in Hong Kong and the management's expectation on market development. Cash flows beyond the five-year period are extrapolated using the estimated growth rate of 2% (2015: 2%) after consideration of the economic conditions of the market. The discount rate of 8% (2015: 6%) is pre-tax and derived by reference to the Capital Asset Pricing Model plus a risk premium reflecting specific risks related to the industry.

The carrying amounts of two public bus licences were HK\$7,600,000 and their recoverable amounts which represented their value in use were HK\$5,500,000. The aggregate impairment loss charged in respect of these public bus licences which their carrying amounts exceeded and their recoverable amounts was HK\$2,100,000 (2015: Nil) for the year ended 31 March 2016.

## 18. Goodwill

	2016 HK\$'000	2015 HK\$'000
At the beginning of the year		
Gross carrying amount	82,056	82,056
Accumulated impairment	(59,138)	(31,987)
Net carrying amount	22,918	50,069
Net carrying amount at the beginning of the year	22,918	50,069
Provision for impairment of goodwill (note 9)	–	(27,151)
Net carrying amount at the end of the year	22,918	22,918
At the end of the year		
Gross carrying amount	82,056	82,056
Accumulated impairment	(59,138)	(59,138)
Net carrying amount	22,918	22,918

As at 31 March 2016 and 2015, the carrying amounts of goodwill, net of any impairment loss, were allocated to four cash generating units (“CGUs”) of franchised PLB services according to their separate operating rights.

The recoverable amounts of the CGUs are determined based on value in use basis (also known as “income approach”). Valuation by market approach is not appropriate as no other operator can operate the same franchised PLB route in the market. The value in use calculation uses cash flow projections based on the financial budget covering a five-year period. Assuming that the government policies for PLB industry remain unchanged, the management determines the key assumptions including budgeted revenues, fuel costs, staff costs and other operating costs based on past performance of the CGUs, the general price inflation in Hong Kong and the management’s expectation on market development. Cash flows beyond the five-year period are extrapolated using the estimated growth rate of 2% (2015: 2%) after consideration of the economic conditions of the market. The discount rate of 12% (2015: 11.9%) is pre-tax and derived by reference to the Capital Asset Pricing Model plus a risk premium reflecting reflects specific risks, particularly the inherent risks and uncertainties associated with the competition from MTR West Island Line (“WIL”) relating to the industry and CGUs.

As at 31 March 2016, the recoverable amounts of the CGUs were higher than its carrying amounts, and hence the goodwill allocated to the CGUs was not regarded as impaired. Any reasonably possible changes in the key assumptions used in the value in use assessment model would not affect management’s view on impairment as at 31 March 2016.

A summary of the allocation of goodwill to the CGUs is as follows:

	2016 HK\$'000	2015 HK\$'000
Net carrying amount at the end of the year:		
Central Maxicab Limited (“CML”)	13,800	13,800
Others	9,118	9,118
	22,918	22,918

# Notes to the Financial Statements

## 18. Goodwill (Continued)

### Impairment on goodwill allocated to CGU of CML for the year ended 31 March 2015

Since the WIL opened on 28 December 2014, the performances of some PLB routes of the Group operating in the vicinity have been affected to various degrees. Amongst the routes, PLB routes 54 and 55 ("Routes") running between Central and Queen Mary Hospital, which are operated under the CGU of CML were particularly affected. Whilst the Group had proposed route restructuring plans to the Transport Department ("TD") in the hope of minimising the influence from the WIL, the Government did not grant approval to CML until October 2015. When carrying out the impairment test on the CGU of CML as at 31 March 2015, the management therefore considered that it would be prudent to assume that the profitability of the Routes would be weakened in the long run, unless and until firm decisions about the route restructuring plans received from the Government. Therefore, the management was of opinion that the carrying amount of goodwill allocated to the CGU of CML was impaired as at 31 March 2015. The gross carrying amount allocated to the CGU of CML was HK\$40,951,000 as at 31 March 2015.

Vigers was engaged to carry out a business valuation on the CGU of CML as at 31 March 2015. According to the business valuation carried out by Vigers, the recoverable amount of the CGU of CML, which represented its value in use, was HK\$13,800,000. As a result, the impairment loss charged against its goodwill was HK\$27,151,000 for the year ended 31 March 2015.

During the year, CML received the TD's approval in transforming part of the Routes into express route in October 2015. Since then, the Routes have been providing more direct and efficient journeys to the passengers. The performance of the Routes has improved and growth in revenue and net profit of the Routes have been recorded. Having considered the business valuation of the Routes as at 31 March 2016, the management concluded that no impairment on the carrying value of the goodwill arising from acquisition of CML as at 31 March 2016 was considered necessary.

## 20. Trade and Other Receivables

	2016 HK\$'000	2015 HK\$'000
Trade receivables — gross	1,403	1,394
Less: provision for impairment	—	—
Trade receivables — net	1,403	1,394
Deposits (note)	5,609	611
Prepayments	3,433	2,213
Other receivables	3,846	4,793
	<b>14,291</b>	9,011

Note: As at 31 March 2016, the deposits include a sum of HK\$4,900,000 (2015: Nil) paid for the purchase of a PLB licence with its corresponding PLB.

The directors consider that the fair values of the trade and other receivables are not materially different from their carrying amounts because these amounts have short maturity periods on their inception.

Majority of the Group's revenue is attributable to franchised PLB services income which is received in cash or collected via Octopus Cards Limited and remitted to the Group on the next business day after the day in which services are rendered. The Group normally grants a credit term ranging from 0 to 30 days to other trade debtors.

The ageing analysis of trade receivables, prepared in accordance with the invoice dates, is as follows:

	2016 HK\$'000	2015 HK\$'000
0 to 30 days	1,219	1,224
31 to 60 days	124	170
61 to 90 days	60	—
	<b>1,403</b>	1,394

At each balance sheet date, the Group reviewed trade receivables for evidence of impairment on both individual and collective basis. Based on this assessment, no impairment was recognised for the years ended 31 March 2016 and 2015.

The aging analysis of trade receivables that were past due at the balance sheet dates but not impaired based on due dates, is as follows:

	2016 HK\$'000	2015 HK\$'000
Neither past due nor impaired	1,081	994
1 to 30 days past due	177	130
31 to 60 days past due	140	—

	<b>1,403</b>	1,394

# Notes to the Financial Statements

For the year ended 31 March 2016

## 20. Trade and Other Receivables (Continued)

Trade receivables that were neither past due nor impaired related to customers for whom there was no recent history of default.

Trade receivables that were past due but not impaired related to customers that have a good track record with the Group. Based on past credit history, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

Deposits and other receivables do not contain past due nor impaired assets.

## 21. Bank Balances and Cash

	2016 HK\$'000	2015 HK\$'000
Cash at bank and in hand	22,433	18,825
Short-term bank deposits	43,555	30,450
	<b>65,988</b>	49,275

The effective interest rates on short-term bank deposits were in the range of 0.65% to 0.90% per annum (2015: 1.02% to 1.15%). These deposits have an average maturity of 14 days to 75 days (2015: 7 days to 19 days).

The directors consider that the fair value of the short-term bank deposits is not materially different from its carrying amount because of the short maturity period on its inception.

## 22. Borrowings

	2016 HK\$'000	2015 HK\$'000
<b>Bank loans, secured</b>		
Current	9,820	9,506
Non-current	132,197	137,911
<b>Total borrowings</b>	<b>142,017</b>	147,417

The carrying values of borrowings are considered to be a reasonable approximation of fair values.

There were no outstanding overdraft as at 31 March 2016 and 2015.

# Notes to the Financial Statements

## 22. Borrowings (Continued)

As at 31 March 2016, the Group's bank loans were repayable as follows:

	2016 HK\$'000	2015 HK\$'000
Within one year	9,820	9,506
In the second year	10,025	9,710
In the third to fifth years	30,795	30,199
After the fifth year	91,377	98,002
	<b>142,017</b>	147,417
Less: Amounts shown under current liabilities	(9,820)	(9,506)
Amounts shown under non-current liabilities	<b>132,197</b>	137,911

The interest rates are principally on a floating rate basis and range from 1.62% to 2.40% per annum (2015: 1.49% to 2.40%).

The bank loans are secured by certain assets of the Group and guarantees provided by the Company (note 24).

## 23. Trade and Other Payables

	2016 HK\$'000	2015 HK\$'000
Trade payables	3,611	4,781
Other payables and accruals	19,031	16,277
	<b>22,642</b>	21,058

The Group is granted by its suppliers credit periods ranging from 0 to 30 days. Based on the invoice dates, the ageing analysis of trade payables is as follows:

	2016 HK\$'000	2015 HK\$'000
0 to 30 days	3,611	4,781

All amounts are short-term and hence the carrying values of trade and other payables are considered to be a reasonable approximation of their fair value.

## 24. Banking Facilities

As at 31 March 2016, the Group had banking facilities totalling HK\$151,317,000 (2015: HK\$156,717,000) of which approximately HK\$142,017,000 (2015: HK\$147,417,000) were utilised. These facilities were secured by:

- (i) pledges of certain property, plant and equipment of the Group with net book value of HK\$3,715,000 (2015: HK\$4,010,000) (note 15);
- (ii) pledges of certain PLB licences with carrying amount of HK\$238,280,000 (2015: HK\$235,800,000) (note 16); and
- (iii) guarantees provided by the Company of HK\$208,443,000 (2015: HK\$203,200,000) (note 32).

## 26. Share-Based Compensation

On 30 August 2013, the Company terminated the share option scheme adopted on 22 March 2004 (the "2004 Scheme") and adopted a new share option scheme (the "2013 Scheme") on the same date. Pursuant to the 2013 Scheme the eligible persons may be granted options to subscribe for shares of the Company upon and subject to a maximum number of shares available for issue thereunder, which is 26,612,500, representing 10% of the issued shares of the Company as at 30 August 2013, the date of approval of the 2013 Scheme. The subscription price determined by the board of directors will be at least the higher of (i) the closing price of the Company's shares as stated in the Stock Exchange's daily quotations sheet on the date of grant; (ii) the average closing price of the Company's shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant and (iii) the nominal value of the Company's shares. All share-based compensation will be settled in equity. The Group has no legal or constructive obligation to repurchase or settle the options other than issuing the Company's ordinary shares.

Exercisable at the end of the year	13,378,000	1.38	4,950,000	1.60

Notes:

- (i) During the year ended 31 March 2016, a total of 8,428,000 (2015: Nil) share options was granted on 23 September 2015 and vested immediately. The Binomial Model was used to estimate the fair value of the share options. The variables and assumptions used in computing the fair value of the share options were based on the management's best estimate. Changes in subjective input assumptions could materially affect the fair value estimate.

The significant inputs into the model for the share options granted during the year are as follows:

Closing price of the share on the date of grant	HK\$1.25
Exercise price	HK\$1.25
Annual risk-free interest rate	1.802%
Expected annual dividend yield	6.98%
Expected option life	10 years
Expected annual volatility	23.74%

The underlying expected annual volatility was determined by reference to the historical data calculated based on the expected life of share options.

The Group recognised a total share-based compensation expense of HK\$1,433,000 (2015: Nil) for the year ended 31 March 2016, in regard of the share options granted by the Company during the year.

- (ii) The share options granted on 23 September 2015 were granted under the 2013 Scheme, while those granted on 20 October 2011 were granted under the 2004 Scheme.
- (iii) The closing prices of the share immediately before the date of grant of 20 October 2011 and 23 September 2015 were HK\$1.60 and HK\$1.25 respectively.
- (iv) All outstanding share options were vested immediately on the date of grant.
- (v) The weighted average remaining contractual life of the outstanding share options at the balance sheet date was 8.0 years (2015: 6.6 years).
- (vi) No share options were exercised, lapsed or cancelled during the years ended 31 March 2016 and 2015.

Deferred tax assets are recognised for tax losses carried forward to the extent that realisation of the related tax benefit through the future taxable profits is probable.

## 30. Operating Lease Commitments

As lessee

The total future minimum lease payments under non-cancellable operating leases payable by the Group are as follows:

	<b>PLB rental</b>	
	<b>2016</b> HK\$'000	2015 HK\$'000
Within one year	6,141	6,239

As lessor

The Group had future aggregate minimum lease receipts under non-cancellable operating leases as follows:

	<b>Advertising income</b>	
	<b>2016</b> HK\$'000	2015 HK\$'000
Within one year	2,244	3,759

## 31. Capital Commitment

As at 31 March 2016, the Group had the following capital commitment:

	2016 HK\$'000	2015 HK\$'000
Contracted but not provided for:		
— Property, plant and equipment	1,230	43

## 32. Financial Guarantee Contracts

As at 31 March 2016, the Company had executed corporate guarantees to secure general banking facilities granted to the subsidiaries which amounted to HK\$208,443,000 (2015: HK\$203,200,000). Under the guarantee, the Company would be liable to pay the bank if the bank is unable to recover the loan. At the balance sheet date, the outstanding balance of the bank loans was HK\$128,736,000 (2015: HK\$133,663,000) and this represents the Company's maximum exposure under the guarantee contract. No provision for the Company's obligation under the financial guarantee contract has been made as the directors consider that the fair value of these corporate guarantees are not significant and it is not probable that the repayment of loan would be in default.

## 33. Related Party Transactions

Save as disclosed elsewhere in the financial statements, during the year, the Group had the following significant transactions with its related parties:

### (a) Key management compensation

	2016 HK\$'000	2015 HK\$'000

## 35. Financial Risk Management and Fair Value Measurements

The Group actively and regularly reviews and manages its financial risk and takes actions to mitigate such risk.

The Group's financial instruments comprise trade and other receivables, bank balances and cash, borrowings and trade and other payables. The Group has not used any derivatives and other instruments for hedging purposes. During the years ended 31 March 2016 and 2015, the Group also did not hold or issue any derivative financial instruments for trading purposes.

The main risks arising from the Group's financial instruments are foreign exchange risk, price risk, liquidity risk, interest rate risk and credit risk. The Group adopts conservative strategies on its risk management and seeks to limit the Group's exposure to these risks to a minimum. The board of directors reviews and agrees policies for managing each of these risks.

### 35.1 Categories of financial assets and liabilities

#### (i) Financial assets

	2016 HK\$'000	2015 HK\$'000
Loans and receivables:		
Trade and other receivables	5,858	6,798
Bank balances and cash	65,988	49,275
	<b>71,846</b>	56,073

#### (ii) Financial liabilities

	2016 HK\$'000	2015 HK\$'000
At amortised cost:		
Borrowings	142,017	147,417
Trade and other payables	22,642	21,058
	<b>164,659</b>	168,475

### 35.2 Foreign exchange risk

Currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The management considers that the Group is not exposed to significant foreign exchange risk as the majority of transactions, monetary assets and liabilities are denominated in the functional currency of the relevant group entities. Accordingly, no foreign currency risk sensitivity analysis is presented.

### 35.3 Price risk

The Group is exposed to fuel price risk. During the years ended 31 March 2016 and 2015, the Group did not have any hedging policies over its anticipated fuel consumption. The management continues to closely monitor the changes in market condition

## 35. Financial Risk Management and Fair Value Measurements (Continued)

### 35.4 Liquidity risk

Liquidity risk relates to the risk that the Group will not be able to meet its obligations associated with its financial liabilities.

The Group's prudent policy is to regularly monitor its current and expected liquidity requirements, to ensure that it maintains sufficient reserves of cash and cash equivalents, as well as adequate undrawn committed banking facilities to meet its liquidity requirements in the short term and longer term.

Analysed below is the Group's remaining contractual maturities for its financial liabilities as at balance sheet date. When the creditor has a choice of when the liability is settled, the liability is included on the basis of the earliest date when the Group is required to pay. Where settlement of the liability is in instalments, each instalment is allocated to the earliest period in which the Group is committed to pay.

The contractual maturity analysis below is based on the undiscounted cash flows of the financial liabilities.

	Carrying amount HK\$'000	Total contractual undiscounted cash flow HK\$'000	Within 1 year or on demand HK\$'000	Between 1 and 2 years HK\$'000	Between 2 and 5 years HK\$'000	Over 5 years HK\$'000
<b>2016</b>						
Borrowings	142,017	166,700	12,710	12,710	37,566	103,714
Trade and other payables	22,642	22,642	22,642	-	-	-
	<b>164,659</b>	<b>189,342</b>	<b>35,352</b>	<b>12,710</b>	<b>37,566</b>	<b>103,714</b>
<b>2015</b>						
Borrowings	147,417	173,482	12,474	12,474	37,257	111,277
Trade and other payables	21,058	21,058	21,058	-	-	-
	168,475	194,540	33,532	12,474	37,257	111,277

As at 31 March 2016, the Group had undrawn facilities totalling HK\$9,300,000 (2015: HK\$9,300,000) which were the overdraft facilities granted by the banks.

The amounts included above for financial guarantee contracts are the maximum amounts the Company should settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantor. No provision has been made for the Company's obligation under the financial guarantee contract as explained in note 32.

## 35. Financial Risk Management and Fair Value Measurements (Continued)

### 35.5 Interest rate risk

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primarily from its bank balances and borrowings. As at 31 March 2016 and 2015, the Group's bank balances and bank borrowings were carried on floating rate basis and were denominated in Hong Kong dollars.

The change in interest rate will affect the net profit of the Group. As at 31 March 2016, it is estimated that if there was a decrease/increase of 1% (2015: 1%) in interest rate, with all other variables remaining constant, the Group's consolidated equity and profit after tax would have increased/decreased by approximately HK\$821,000 (2015: HK\$976,000). The 1% increase or decrease represents the reasonable possible change in interest rates over the period until the next annual balance sheet date. The sensitivity analysis was performed on the same basis for the year ended 31 March 2015.

The Group currently does not have an interest rate hedging policy. However, the management monitors the Group's interest rate exposure and will consider hedging significant interest exposure should the need arise.

### 35.6 Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group.

The Group's maximum exposure to credit risk on recognised financial assets is limited to the carrying amount at the balance sheet date as summarised in note 35.1(i) above.

The credit risk for bank balances and deposits is considered negligible as the counterparties are reputable banks.

The Group has no significant concentrations of credit risk because of its diverse customer base. The income receipt of the Group is on cash basis or collected via Octopus Cards Limited and remitted to the Group on the next business day after the day in which services are rendered, thus, the operation does not have any significant credit risk.

# Notes to the Financial Statements

For the year ended 31 March 2016

## 36. Capital Management

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return for shareholders by pricing services commensurate with the level of risks.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher level of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors capital structure on the basis of the net debt-to-equity ratio. This ratio is calculated as net debts (total interest-bearing debts net of cash and cash equivalents) over total equity.

The Group's capital management strategy is to maintain the net debt-to-equity ratio at a healthy capital level in order to support its businesses. The principal strategies adopted by the Group include, without limitation, reviewing future cash flow requirements and the ability to meet debt repayment schedules when they fall due, maintaining a reasonable level of available banking facilities and adjusting investment plans and financing plans, if necessary, to ensure the Group has a reasonable level of capital to support its business. The Group relies on internal resources and interest-bearing borrowings to finance the capital expenditures, which is the same as prior years.

The net debt-to-equity ratio of the Group at the balance sheet date is calculated as follows:

	2016 HK\$'000	2015 HK\$'000
Short term borrowings	9,820	9,506
Long term borrowings	132,197	137,911
	142,017	147,417
Bank balances and cash	(65,988)	(49,275)
Net debts	76,029	98,142
Total equity	253,681	237,388
Net debt-to-equity ratio	30%	41%

## 37. Event After The Balance Sheet Date

After the balance sheet date, the Group purchased four PLB licences together with the four corresponding PLBs at a total consideration of HK\$20,330,000 for operational use. In order to finance the acquisition of the PLB licences and the corresponding PLBs, the Group entered into a refinancing arrangement by terminating existing bank loans of HK\$7,389,000 and drawing down new bank loans amounting to HK\$16,000,000 on 30 May 2016. The net proceeds received from the above refinancing arrangement was HK\$8,611,000.
